

Section: Used Oil & Related Wastes

Section: Used Oil & Related Wastes

Self-Audit Tips, Action Steps & Resources

Used oil

Used oil includes but is not limited to: engine oil, transmission fluid, lubricating oil, grease (excluding food grease), brake fluid, machining coolant, cutting oil.

*Halogenated solvents

Halogenated solvents are solvents that contain a halogen such as chlorine, fluorine, bromine or iodine. Some examples include: Dichloromethane (Methylene chloride), trichloroethylene, perchloroethylene (tetrachloroethylene). Halogenated solvents may not be mixed with used oil and must be collected and disposed of separately.

**F-listed wastes

See F-Listed Hazardous Wastes at www.pca.state.mn.us/ publications/w-hw2-00.pdf.

For more information

See Managing Used Oil and Related Wastes at www.pca.state.mn.us/ publications/w-hw4-30.pdf.

***See Parts Washing Solvent at www.pca.state.mn.us/ publications/w-hw4-43.pdf.

Reducing hazardous solvent waste

Use the least toxic solvent for the job and consider switching to non-chlorinated solvents.

- ← *Refer to the tips, action steps and resources to help you complete the audit.*
- 1. Does your business generate used oil and/or take in used oil from its customers?
 - \Box Yes. Fill out the Management Plan Form 2 Used Oil on page 2.
 - \Box No. Move on to question 3.
- 2. Do you mix any other wastes with your used oil?
 - \Box Yes (list): _
 - → Do not mix used oil with wastes such as antifreeze, halogenated solvents* (many brake and carburetor cleaners), F -listed wastes**, gasoline, engine degreasers or paint thinner.
 - → Petroleum-based parts washing solvent*** and/or sludge that is only hazardous for being ignitable may be mixed with used oil if you are a VSQG (you generate less than 220 pounds or about 22 gallons of non-acute hazardous waste per month) and you meet all legal requirements regarding mixing. The solvent (and any sludge) cannot exceed 10 percent of the total volume of the final mixture. Be sure to check with your used oil hauler to make sure it is ok before mixing parts washing solvent and/ or sludge with your used oil.
 - \Box No.

Indicate whether your business generates any of the following wastes:

- 3. Used oil filters
 - Yes. Complete Management Plan Form 2 Used Oil Filters on page 3
 - \Box No.

4. Used oil sorbent, floor dry or disposable oily rags

- □ Yes. Complete Management Plan Form 2 Used Oil Sorbent, Floor Dry and Disposable Oily Rags on page 4
- \square No.

Section: Used Oil & Related Wastes (continued)

Instructions for filling out the Management Plan Form 2

B. Year waste first generated: Estimate if unknown.

C. Shipment or treatment

frequency: For example: 2 times per 1 year. Write "to be determined" if you are unsure how often the waste will be disposed.

C. On-site management: See *Burning used oil* at *www.pca.state.mn.us/ publications/w-hw4-32.pdf*.

F. Type of waste storage

container: Storage containers must be:

- Compatible with the waste (will not react with, be affected by, or absorb contents)
- Sturdy and leak-proof (will not leak when overturned or bumped)

H. Amount generated per

year: If you don't have a history of the amount of waste generated, estimate the amount that will be generated in a year.

*K./L./M./N. Transporter/

Disposer: See *Hazardous Waste Disposal Companies* factsheet to find a transporter and disposer. The factsheet may be included with the self audit or can be downloaded at *www.hennepin.us/ hazwastedisposalcompanies.*

Contact your used oil transporter/disposer for their EPA ID number.

Management	Plan	Form	2—	Used	Oil

Report how you manage or will manage your wastes. Call 612-348-3777 for assistance. ← *Refer to the instructions for more information.*

- A. Waste name: Used Oil
- B. Year waste was first generated at the site under current ownership: _____
- C. Frequency of shipment or treatment: _____ times per _____ year
- D. Source or process of generation (check all that apply):
 □ Changing oil □ Other (specify): _____
- E. On-site management of waste (select one):
 - □ Stored for shipment (You ship or will ship your waste to a disposal or recycling facility)
 □ Mixed with other wastes (list) ______
 - □ Burned in a waste oil heater □ Recycled for beneficial use □ Other (specify) _____
- **F.** Type of waste storage container(s):
 - □ Drum □ Pail □ Original container
 □ Aboveground storage tank □ Belowground storage tank
 □ Other (specify) _____
- G. On-site storage location of the waste:
 Indoors
 Outdoors
 N/A
- H. Amount generated per year: _____ gallons or _____ pounds
- I. Check that you understand and follow the requirements for proper labeling and storage:

□ Labeled with a clear description of the waste (e.g., Used Oil) □ Container is closed

J. Disposal facility management method (*contact your disposal company if unknown*) □ Recycle/burn as fuel □ Incinerate

□ Have not yet identified a disposal company □ Other _____

K. Transporter name*: _____

or \Box Self \Box To be determined*

M. Disposer name*: ____

- or Burned as fuel on site To be determined*
- N. Disposer address: _____

Phys. state:
Billing code:
Disposal method: RB or OA
Waste inactive:

Section: Used

Instructions for filling out the Management Plan Form 2

B. Year waste first generate Estimate if unknown.

C. Shipment or treatment

frequency: For example: 2 times per 1 year. Write "to be determined" if you are unsur how often the waste will be disposed.

D. Source or process of

generation: If you have fuel pump filters (gas stations) or parts washing filters, check with your used oil hauler to determine if they can be mixed with your used oil filters for disposal.

F. Type of waste storage

container: Storage containers must be:

Compatible with the waste. • such as steel or plastic drum or pail (will not react with, be affected by, or absorb contents).

Sturdy and leak-proof (will not leak when overturned or bumped).

H. Amount generated per

year: If you don't have a history of the amount of waste generated, estimate the amount that will be generated in a year.

*K./L./M./N. Transporter/

Disposer: See *Hazardous* Waste Disposal Companies factsheet to find a transporter and disposer. The factsheet may be included with the self audit or can be downloaded at www.hennepin.us/ hazwastedisposalcompanies.

Contact your used oil transporter/disposer for their EPA ID number.
