

2021 Public Swimming Pool Remodel

All pools located within Hennepin County Environmental Health Department's jurisdiction must conform to MN Rule 4717 and Hennepin County Ordinance 4.

MN Rule 4717 requires all pools constructed, installed, or materially altered in MN to undergo plan review and inspection. Any pool constructed or physically altered without prior plan approval must be closed immediately.

Hennepin County Ordinance 4 states:

All persons who hereafter construct or remodel a public swimming pool shall conform and comply in their construction, erection or alteration with the requirements of this ordinance. Plans and specifications for such construction, remodeling or alteration which shall show layout; mechanical, plumbing and electrical specifications; construction materials; and location and type of equipment and facilities shall be filed by its owner in the Office of the Health Authority. The statutory or home rule charter city shall not issue a building permit for the facility or remodeling or alteration permit for the facility until such plans have the approval of the Health Authority. The swimming pool shall be constructed and finished in conformance with the approved plans. The Health Authority shall inspect the swimming pool as frequently as they may deem necessary during construction to ensure that construction occurs in conformance with the approved plans. They shall conduct a final inspection prior to the start of operations and issuance of an approved license.

ALTERATIONS THAT REQUIRE PLAN REVIEW

**The following list is not all-inclusive; plan review/inspection may be required for actions not listed.*

Actions handled by Hennepin County

- **Re-piping of recirculation system**
- **Alteration or replacement of pool fence**
