The Hennepin County Bottineau Community Works program has been collaborating with cities and community partners in the Bottineau Corridor where the METRO Blue Line Extension will run to maximize community benefits of Light Rail Transit. This project focused on infrastructure enhancements to improve connections for people walking, biking, and rolling near planned light rail stations in the cities of Golden Valley, Robbinsdale, Crystal and Brooklyn Park. The following is one of ten projects selected from more than 450 potential bicycle and pedestrian projects. Design plans for the final ten projects have been developed at the 60 percent engineering level, including identifying potential implementation challenges and funding needs that will need to be addressed to move forward.

Project A: 93rd Avenue North

City of Brooklyn Park

Shared-use path along 93rd Avenue North creates a link between the planned LRT station at 93rd Avenue North and Jefferson Highway/Central Avenue (Osseo’s main street). At less than two miles, this shared-use path creates a convenient bicycle connection between downtown Osseo and the planned METRO Blue Line Extension. It will connect to existing facilities over Highway 169 and planned facilities connecting to West Broadway to be constructed by other agencies as part of the LRT project.

**Facility Type:**
Shared-use path

**Project Length:**
0.4 miles

**Estimated Cost:**
$836,000

*Includes estimated construction costs, design and construction administration (Estimated construction in 2023)
Final Ten Projects
