The Hennepin County Bottineau Community Works program has been collaborating with cities and community partners in the Bottineau Corridor where the METRO Blue Line Extension will run to maximize community benefits of Light Rail Transit. This project focused on infrastructure enhancements to improve connections for people walking, biking, and rolling near planned light rail stations in the cities of Golden Valley, Robbinsdale, Crystal and Brooklyn Park. The following is one of ten projects selected from more than 450 potential bicycle and pedestrian projects. Design plans for the final ten projects have been developed at the 60 percent engineering level, including identifying potential implementation challenges and funding needs that will need to be addressed to move forward.

**Project G: Douglas Drive North and Bass Lake Road**

*City of Crystal*

The Douglas Drive portion of the project creates a shared-use path between the soon to be reconstructed Becker Park and West Broadway Avenue. This connection will serve two large apartment complexes. A shared-use path on Bass Lake Road between Bottineau Boulevard and Xenia Avenue North creates a link between recently added bikes lanes east of Xenia Avenue North to the planned LRT station located at Bass Lake Road.

**Facility Type:** Shared-use Path  
**Project Length:** 0.5 miles  
**Estimated Cost:** $843,000

*Includes estimated construction costs, design and construction administration (Estimated construction in 2023)*
