David J. Hough, County Administrator A2303 Government Center 300 South Sixth Street Minneapolis, Minnesota 55487-0233

612-348-7574 FAX: 612-348-8228 www.hennepin.us

June 2, 2015

The Honorable Members of the Hennepin County Board of Commissioners and Citizens of Hennepin County:

Minnesota Statutes require all counties to issue an annual report on their financial position and activity prepared in conformity with generally accepted accounting principles and audited in accordance with generally accepted auditing standards by a firm of licensed certified public accountants or the State auditor. Pursuant to that requirement, we hereby issue the comprehensive annual financial report of Hennepin County (the County) for the fiscal year ended December 31, 2014.

Management assumes full responsibility for the completeness and reliability of the information contained in this report, based upon a comprehensive framework of internal control established for this purpose. Because the cost of internal control should not exceed anticipated benefits, the objective is to provide reasonable, rather than absolute, assurance that the financial statements are free of any material misstatements.

McGladrey LLP, Certified Public Accountants, has issued an unmodified ("clean") opinion on the County's financial statements for the year ended December 31, 2014. The independent auditor's report is located at the front of the financial section of this report.

The independent audit of the financial statements of the County was part of a broader, federally mandated "Single Audit" designed to meet the special needs of Federal grantor agencies. The standards governing Single Audit engagements require the independent auditor to report not only on the fair presentation of the financial statements, but also on the audited government's internal controls and compliance with legal requirements, with special emphasis on internal controls and legal requirements involving the administration of Federal awards. These reports are included in a separate Single Audit report.

Management's discussion and analysis (MD&A) immediately follows the independent auditor's report and provides a narrative introduction, overview, and analysis of the basic financial statements. MD&A complements this letter of transmittal and should be read in conjunction with the letter.

## **Profile of the Government**

The County is governed by a seven-member Board of Commissioners elected by district for staggered, four-year terms. The County Attorney and Sheriff are also elected officials. County Commissioners are responsible, among other things, for authorizing resolutions, adopting the annual budget, appointing committees and hiring the County

Administrator. The County Administrator is responsible for carrying out the policies and resolutions of the Board of Commissioners, for overseeing the day-to-day operations of the County, and for appointing the heads of the County's departments. The County has received high marks for governmental structure, as well as for integration of social services, superior debt management, technology training, and innovative partnerships. The County was established by the territorial legislature of Minnesota in 1852, six years before Minnesota became a state. The County is located within the Twin Cities Metropolitan Area. The upper Mississippi River flows through Minneapolis and defines the northeastern boundary of the County.

| 2014 Approved Budget                    | \$1.82 billion  |
| Taxable Property Estimated Market Value | \$134.7 billion |

Minneapolis, the most populous city in Minnesota, is one of 45 municipalities within the County. The County encompasses 611 square miles with 200 lakes larger than 10 acres and numerous parks and trails providing recreational opportunities and community amenities to residents.

## **County Services**

At the end of 2014, the County had 8,107 employees providing a full range of services. The following is a brief summary of the services each program provides, including 2014 department operating indicators.

#### Libraries

Number of Employees - 742

- Circulation 15,800,000 items (books, CDs and DVDs)
- Annual visits to library locations 5,700,000
- Annual visits to library website 19,500,000

Hennepin County Library serves patrons by providing access to library buildings and resources including materials, technology and staff. The Library has 850,000 active library card holders. Starting in January 2014, the libraries increased open hours by 249 per week, resulting in approximately 10,000 additional open hours for patrons in 2014.

The Library responded to patron feedback and increased the number of items patrons can check out and put on hold. Downloadable content, including books, movies and music, continued to increase as a percentage of overall Library circulation, which held steady in 2014 at 15.8 million items checked out or renewed. In October, 2014, the Library launched a redesigned website and catalog at www.hclib.org. Website improvements include better mobile access, stronger search capabilities, new recommended reads, and integrated eBooks. The site received many positive reviews. The Library expects annual website visits to grow beyond the 19.5 million seen in 2014.

#### Public Safety

Number of Employees - 2,249

- County Attorney Evaluated 15,000 adult and juvenile criminal cases
- Public Defender Opened 45,054 juveniles and adults cases
- Sheriff's Office 34,116 jail bookings
- Community Corrections and Rehabilitation 242,000 hours of Sentencing-to-Service and Community Work Service hours completed and 204 juveniles in Out-of-Home Placements at year-end

The Public Safety program includes the County's activities in law enforcement, criminal prosecution, legal counsel for the indigent, correctional programs, and provides legal reference information to attorneys and citizens of the County. Other service areas under Public Safety include: County Court Functions, which provides administrative services for certain District Court functions; and the 800 MHz Radio Program, which purchases and maintains the radio equipment that is used by the Minnesota Regional Public Service Communication System.

## **County Services - continued**

#### Human Services and Public Health

Number of Employees - 3,084

- Improvements to screening children at high risk for developmental delays between the ages of zero and five were created in 2014. Over 90 targeted children were provided scholarships to attend and benefit from highquality child care settings.
- The Stable Families Initiative reduces shelter used among families with histories of repeat-shelter stays. This initiative integrated employment services, social services case management, housing search and subsidies, and coordination of eligibility service.

The Human Services and Public Health Department (HSPHD) provide a wide variety of required and discretionary financial assistance, human services, and public health programs. Services are provided in the following service areas: Better Together Hennepin, Children and Family Services, Eligibility and Child Support, Assessment and Case Management, Public Health, Administrative and Community-Based Services, Veterans' Services and Internal Services.

HSPHD continues to locate offices where clients live and work in the community. Three community-based human services centers (hubs) opened in 2014: South Suburban, North Minneapolis, and West Suburban. A milestone was reached in June when the department began seeing more clients at these community-based offices than the long-time downtown site at Century Plaza. In addition, HSPHD opened or reopened five regional satellites - Brookdale, Hopkins, Health Service Building, Eden Prairie, and Eastside Neighborhood Services.

#### Health

Number of Employees - 341

- NorthPoint Health & Wellness Center patient visits 85,268
- Metropolitan Health Plan (MHP) members 13,290 members enrolled
- Cases reported to the Medical Examiner's Office 6,763

Healthcare services available to citizens include: basic care, medical services to the indigent, emergency medical services, and investigations of certain deaths. These services are provided through the NorthPoint Health & Wellness Center, MHP, the office of the Medical Examiner, and the County's support of the Hennepin County Medical Center, a discretely presented component unit of the County.

Public Works Number of Employees – 666

- Lane miles of road maintained 2,182
- Facilities managed 79 County buildings and 42 leased buildings

Public Works provides maintenance and construction of County roads and bridges; management of the County's solid waste system; as well as housing, transit and workforce development, For 2014 these services were

provided through seven departments: Environmental Services; Administration; Housing, Community Works and Transit; Strategic Planning and Resources; Management Support; Transportation; and Property Services (formerly under General Government). Public Works also manages two County internal service funds; the Central Mobile Equipment Division and the Energy Center. In addition, Public Works provides staff support to the Housing and Redevelopment Authority and the Regional Railroad Authority.

## **County Services - continued**

#### **General Government**

Number of Employees – 1,025

General Government provides legislative direction, administrative support, and general services for the management of County business and programs. This area is comprised of a number of different support and direct-service departments, including the following:

| Board of<br>Commissioners            | Establishes all formal policies, executes agreements, and authorizes budgets and staffing as the legislative authority for the County.   |
|--------------------------------------|--|
| County<br>Administration             | Administers the overall operation of the County, implements the programs and policies established by the County Board, and advises the County Board on policy matters.   |
| Assessor                             | Administers property assessments.  |
| Budget & Finance                     | Ensures sound credit conditions, working capital, and overall financial health within<br>Hennepin County by supporting strategic objectives through best practices in<br>general accounting, payroll, and purchasing; leveraging technology, and effective<br>management of financial and human resource systems and services. |
| Examiner of<br>Titles                | Performs judicial, administrative and legal adviser duties specified in the Minnesota Land Registration Act.   |
| Information<br>Technology            | Provides effective, efficient, and innovative technology services and tools to County departments and lines of business, building a technical infrastructure that supports the delivery of services to community partners and the citizens of the County.  |
| Resident and Real<br>Estate Services | Administers elections including maintenance of a centralized voter registration file, issues various licenses such as driver, marriage, motor vehicle, and fish/game licenses, handles the administration of property tax collection activities and distribution to local governments within the County.                       |
| Human Resources                      | Provides human resource programs and support services.   |
| Public Affairs                       | Raises the public's awareness of the County's role in enhancing the quality of life through effective communication.   |
| Internal Audit                       | Reviews and evaluates adequacy and effectiveness of the County's internal control system.  |
| General County<br>Purposes           | Provides dues and contributions to organizations benefiting the County; budgets for miscellaneous countywide functions; reserves available funding for contingent activities further defined during the budget year and includes the Center of Innovation and Excellence.  |

## **Budget**

#### **Budget Process**

Budgets are adopted on a basis consistent with generally accepted accounting principles. Annual appropriated budgets are adopted for the general, special revenue, debt service, and enterprise funds. All annual appropriations lapse at year-end to the extent that they have not been expended or encumbered. Project-length financial plans are adopted for all capital projects. The budget process is described in more detail in the Notes to Required Supplementary Information on page 89.

#### 2014 Original Budget Focus

The 2014 original budget was developed to address future needs in the most effective manner possible. Continuing the practice of recent years, the Board and senior staff conducted a series of discussions concerning the level of County services and the resources necessary to meet the needs of citizens. The total approved budget for 2014 was \$1.82 billion, a decrease of \$10.2 million or 0.6% from the adjusted 2013 budget. The capital projects budget was approved at \$181 million, a decrease of \$3.3 million or 1.8% from the adjusted 2013 level of \$184.3 million. The operating portion of the budget totaled \$1.6 billion, a decrease of \$7 million or 0.4% from the adjusted 2013 budget. The net property-tax levy for the approved 2014 budget was \$681.3 million, which was \$6.6 million (1%) over 2013. This increase in property tax levy was quite moderate, illustrating the County's strong fiscal stewardship.

#### **Budget Reporting**

Budget-to-actual comparisons are provided in this report for each individual governmental fund for which an appropriated annual budget has been adopted. For the General Fund and other governmental funds with appropriated annual budgets, this comparison is presented in the Required Supplementary Information subsection of this report, which starts on page 79. The comparison for enterprise funds is presented in the Supplementary Information - Enterprise Funds subsection of this report, which starts on page 109.

## Major Initiatives and Achievement

Excelsior Library – Opened in September, 2014. The new Excelsior location contains additional public computers, a refreshed collection; a public area; a community meeting room, indoor and outdoor reading

areas, off-street parking and access to the Lake Minnetonka Regional Trail. The Walker Library opened in April, 2014. The new Walker location offers many new and expanded features including Wi-Fi capabilities, numerous new public computers, iPad dispenser, enlarged children's area, a multi-purpose room, and a separate teen zone.

Human Services opened three more Hubs - Regional offices are crucial to better services for clients and building sustaining relationships with partners. These sites provide more client accessibility and allow the department to partner with a broader range of agencies. In 2014, three additional services centers (hubs) were opened: South Suburban in Bloomington, North in North Minneapolis, and West Suburban in Hopkins. Five regional satellites were also opened (or-reopened) in Brookdale, Hopkins, Health Services Building in Minneapolis, Eden Prairie and Eastside Neighborhood Services.

Construction on the 911 Emergency Communications Facility was completed in 2014. This multiyear project with a budget of \$34 million will greatly enhance the ability of the Sheriff's Office to continually improve the service of dispatching 911 calls, and will facilitate implementation of new emergency communication technologies. This new 49,000 square foot facility in Plymouth, replaces the communication building in Golden Valley that was built in 1948.

## Major Initiatives and Achievements - continued

Wheelage Tax was a new tax of \$10 on registrations for vehicles registered within the County. In 2014,

revenues from this tax were used to aid in maintaining roads throughout the County, which included: 40 lane-miles overlaid, 57 intersections painted, 40 battery backup systems installed, video detection installed at 22 intersections, traffic signals synchronized at 69 intersections, and the completion of pavement crack sealing, guardrail end treatment, bridge maintenance and curb/gutter replacement at various locations.

**Target Field Station** was opened in April, 2014. The total cost of Target Field Station was \$79.3 million, with funding (44 percent) coming from local sources. The remaining funding comes from state (22 percent) and federal (34 percent) sources. Nearly 500 trains pass through the Target Field Station each day, serving riders on the METRO Green and Blue Lines and the Northstar Commuter Rail. The station has more than 104,000 square feet of space that includes a public plaza for year-round special events, green space, a 1,000-seat amphitheater, office space, retail shops and a 286-car underground parking garage. The Minnesota Twins, Target and Hennepin County will utilize the public space for programming and special events throughout the year.

## **Economic and Financial Condition**

Information presented in the financial statements is perhaps best understood when considered from the broader perspective of the specific environment within which the County operates.

#### Local Economy

The economy of the County, for which the City of Minneapolis is the county seat, has longstanding characteristics of strength and diversity in comparison to outstate, regional and even the national economy, as shown in measurements of income and employment. Healthcare, medical device manufacturing, retail sales, financial services and insurance, high tech, and food processing are significant economic sectors providing a strong employment and wage base in the County. Many large international companies maintain their headquarters in the County.

At year-end 2014, the County unemployment rate of 3.7% was lower than the previous year's rate of 4.7%, continuing a 5-year improvement trend. Again in 2014, the County unemployment rate remained lower than the State rate of 4.1% and the national rate of 6.2%.

#### Long-term Financial Planning

The overall economic environment relating to the 2015 budget was improved compared to recent years. The State of Minnesota's budget was in substantially better shape than in the recent past, with a forecasted \$1.2 billion surplus for the biennium ending on June 30, 2015. Continued growth in employment and income contributed to the increase in the state's forecasted revenues.

On the national side, regular economic momentum contributed to an improved economic outlook, as well. Economic activity is expected to grow through 2015 as a result of an upturn in consumer spending, an improved housing market, and increased capital equipment and infrastructure investment, resulting in less uncertainty for state and local governments.

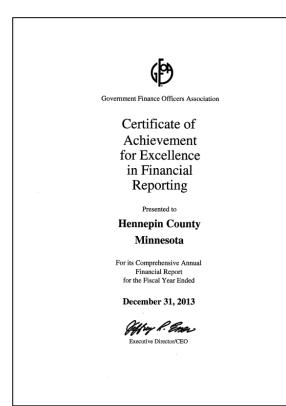

## **Economic and Financial Condition - continued**

For 2015, the County budgeted sufficient funds to provide essential services and to make strategic investments in the future. The resulting \$1.82 billion 2015 budget:

- Is \$26.7 million or 1.5% higher than the final budget of 2014. The \$679.5 million net property tax levy is \$15.6 million higher than the 2014 levy.
- Includes funding for 7,664.4 FTEs, representing a 1.7% increase over 2014. New positions are targeted to address emerging needs and critical staffing shortages in areas such as Human Services child-protection, child support, and case management; NorthPoint Health and Wellness direct patient care; and Community Corrections adult probation
- Includes a \$679.5 million budgeted property tax requirement, reflecting a 2.4% increase over 2014. The expected stability in State revenues led to few expected increases in State revenues expected by the County for 2015, resulting in more reliance on property taxes. In 2015, the owner of a suburban median valued home is expected to see an increase in estimated market value of 8.7% and an increase in County property taxes of 3.3% or \$34 compared to 2014. Likewise, for the Minneapolis median home, the estimated market value is expected to increase by 6.5% in 2015 with an anticipated increase in property tax of 1.8% or \$14.
- Includes a \$256.9 million capital budget, reflecting an increase of \$47.9 million compared to the 2014 final budget level. The capital budget includes \$105.6 million for various road and bridge projects; the transportation capital budget benefits from \$9.3 million of budgeted wheelage tax, a tax implemented in 2014. The capital budget includes \$48.3 million for the construction of the new South Minneapolis Regional Human Services Center at the Hiawatha-Lake Street intersection, and \$14.7 million for library renovations and new construction, such as \$9.2 million for the ongoing construction of the new Brooklyn Park Library. The County also continues to fund projects at the Medical Center, and the budget includes an additional \$20 million for a new Ambulatory Outpatient Specialty Center.
- The 2015 budget for general debt service totals \$135.9 million. The 2015 property tax requirement for debt service increased \$2.7 million to \$82.9 million, an increase of 3.4%. As in 2014, \$2 million of wheelage tax receipts will be used to offset a portion of the 2015 debt service related to road and bridge projects.

The County maintains strong financial management and continues to receive the highest possible credit rating. As in past years, the County's long-term general obligation debt received AAA from Standard and Poor's Ratings Services and AAA from Fitch Ratings.

## **Financial Reporting Award and Acknowledgements**

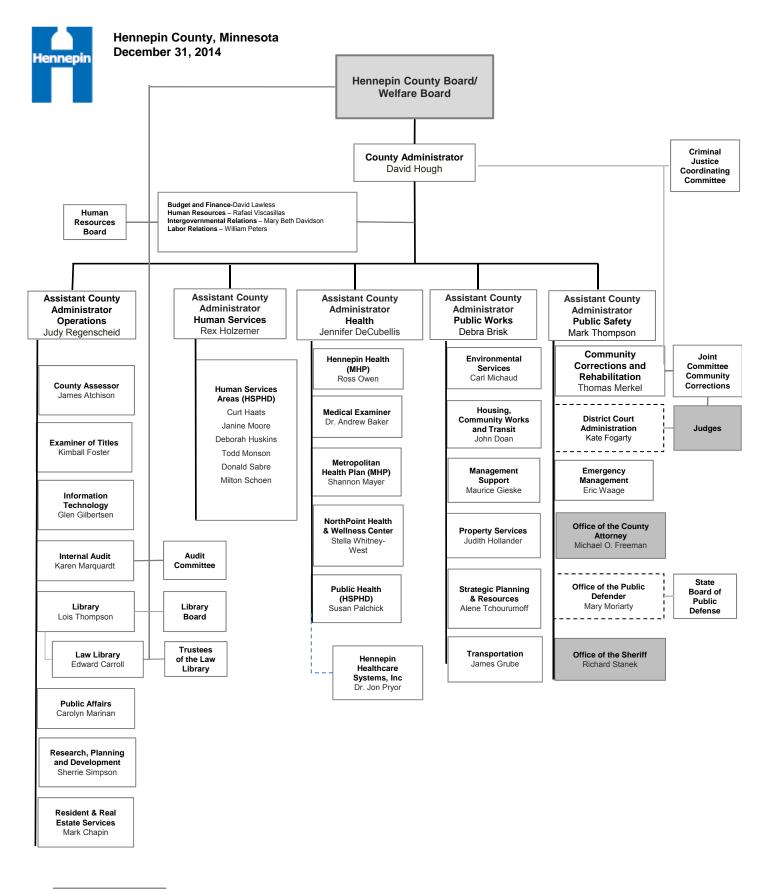

The Government Finance Officers Association (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the County for each of the County's comprehensive annual financial reports for the years 1974 through 2013. In order to be awarded a Certificate of Achievement, a government must publish an easily readable and efficiently organized comprehensive annual financial report. This report must satisfy both generally accepted accounting principles and applicable legal requirements. A Certificate of Achievement is valid for a period of one year. We believe the current comprehensive annual financial report continues to meet the Certificate of Achievement Program's requirements, and we are submitting it to the GFOA to determine its eligibility for another certificate.

The preparation of this report could not have been accomplished without the dedicated services of the entire financial staff of the County. We would like to express appreciation to all members of the departments who assisted and contributed to the preparation of this report. Credit also must be given to the Board of Commissioners for their support for maintaining the highest standards of professionalism in the management of the County's finances.

#### Independent Auditor's Report

To the Board of County Commissioners Hennepin County, Minnesota

#### **Report on the Financial Statements**

We have audited the accompanying financial statements of the governmental activities, the business-type activities, the discretely presented component unit, each major fund, and the aggregate remaining fund information of Hennepin County, Minnesota (the County) as of and for the year ended December 31, 2014, and the related notes to the financial statements, which collectively comprise the County's basic financial statements, as listed in the table of contents.

#### Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

#### Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

#### Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, the discretely presented component unit, each major fund, and the aggregate remaining fund information of Hennepin County, Minnesota, as of December 31, 2014, and the respective changes in financial position, and, where applicable, cash flows thereof for the year then ended, in accordance with accounting principles generally accepted in the United States of America.

11

#### **Other Matters**

#### **Required Supplementary Information**

Accounting principles generally accepted in the United States of America for state and local governments require that the management's discussion and analysis, schedule of funding progress for the retiree health plan, budgetary comparison schedules, and notes to the required supplementary information, as listed in the table of contents, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic or historical context. We have applied certain limited procedures, which consisted of primarily of inquiries of management regarding the methods of measurement and presentation of the required supplementary information. However, we did not audit the information and express no opinion on it.

#### **Other Information**

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the County's basic financial statements. The accompanying supplementary information, as listed in the table of contents, and other information, such as the financial highlights, introductory section and statistical section, is presented for purposes of additional analysis and is not a required part of the basic financial statements.

The 2014 supplementary information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements, or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the 2014 supplementary information is fairly stated, in all material respects, in relation to the 2014 basic financial statements taken as a whole.

We have also previously audited, in accordance with auditing standards generally accepted in the United States of America, the County's 2013 basic financial statements (not presented herein) and have issued our report dated May 30, 2014, which contained unmodified opinions on the respective financial statements of the governmental activities, the business-type activities, the discretely presented component unit, each major fund, and the aggregate remaining fund information. The accompanying supplementary information, as listed in the table of contents, as of and for the year ended December 31, 2013, is presented for purposes of additional analysis and is not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the 2013 basic financial statements. The accompanying supplementary information has been subjected to the auditing procedures applied in the audit of the 2013 basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare those financial statements, or to those financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the 2013 supplementary information is fairly stated, in all material respects, in relation to the 2013 basic financial statements taken as a whole.

The financial highlights, introductory section and statistical section, as listed in the table of contents, has not been subjected to the auditing procedures applied in the audit of the basic financial statements, and accordingly, we do not express an opinion or provide any assurance on it.

#### Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated June 2, 2015, on our consideration of the County's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the County's internal control over financial reporting and compliance.

McGladrey LCP

Minneapolis, Minnesota June 2, 2015

#### Management's Discussion and Analysis

This discussion and analysis is intended to provide financial statement readers with a financial overview and narrative analysis of the financial position and activities of Hennepin County and its blended component units for the year ended December 31, 2014. The information provided here should be read in conjunction with the letter of transmittal that begins on page 1 and the notes to the financial statements, which are presented on pages 47 to 78.

#### FINANCIAL HIGHLIGHTS

#### Government-Wide

At December 31, 2014, the County's assets and deferred outflows of resources exceeded its liabilities by \$1.8 billion. Of this amount, \$122.3 million is restricted by specific statutory requirements or external commitments. The County's net investment in capital assets is \$1.2 billion. The unrestricted amount of net position available is \$561.8 million at the end of 2014 of which \$350.6 million relates to the County's equity interest in component unit.

#### Fund Level

As reported in the governmental fund balance sheets on pages 34 and 35, at the end of 2014 the County's governmental funds reported total ending fund balances of \$608.7 million, which is an increase of \$123.4 million during 2014.

Unassigned fund balance for the General Fund was \$134.8 million, or approximately 23.4% of total General Fund expenditures for the year ended December 31, 2014, compared to \$144.8 million and 25.8% for 2013.

#### Noncurrent Liabilities

The County's total noncurrent liabilities increased \$44.7 million during 2014. The County issued \$100 million in general obligation (GO) debt to support capital improvement plans for the County. In addition to regularly scheduled principal payments on previously issued debt, during the year the County made optional payments of \$10 million for early redemption on the sales tax revenue bond issues outstanding.

#### OVERVIEW OF THE FINANCIAL STATEMENTS

Management's discussion and analysis is intended to serve as an introduction to the County's basic financial statements which include three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements. This report also contains other supplementary information in addition to the basic financial statements.

#### **Government-wide Financial Statements**

The *government-wide financial statements* are designed to provide readers with a broad overview of the County's finances, in a manner similar to a private-sector business.

• The Statement of Net Position presents the County's assets and deferred outflows, which are equal to the reported liabilities and net position. Over time, increases or decreases in net position serve as an indicator of whether the financial position of the County is improving or deteriorating.

#### **OVERVIEW OF THE FINANCIAL STATEMENTS – CONTINUED**

#### Government-wide Financial Statements – continued

• The Statement of Activities presents information showing how the County's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, *regardless of the timing of related cash flows*. Thus, revenues and expenses are reported in this statement for some items that will result in cash flows in future fiscal periods (e.g., uncollected taxes and earned but unused postemployment healthcare benefits).

Both of the government-wide financial statements distinguish functions of the County that are principally supported by taxes and intergovernmental revenues (governmental activities) from other functions that are intended to recover all or a significant portion of their costs through user fees and charges (business-type activities). The governmental activities of the County include General Government, Human Services, Health, Public Safety, Public Works, Libraries, and Debt. The business-type activities of the County include the Metropolitan Health Plan (a health maintenance organization), Environmental Services, Glen Lake Golf Course, and Radio Communications.

The *primary government* shown in the government-wide financial statements includes two legally separate blended component units, the Hennepin County Regional Railroad Authority (RRA) and the Hennepin County Housing and Redevelopment Authority (HRA). The County's discretely presented component unit, Hennepin Healthcare System, Inc. d.b.a. Hennepin County Medical Center (the Medical Center), is shown separately from the primary government. The government-wide financial statements can be found on pages 29 to 33 of this report.

#### Fund Financial Statements

A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The County, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the County can be divided into three categories: governmental funds, proprietary funds, and fiduciary funds.

• **Governmental funds** are used to account for essentially the same functions reported as *governmental activities* in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on *near-term inflows and outflows of spendable resources,* as well as on *balances of spendable resources* available at the end of the fiscal year. Such information can assist in evaluating the County's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for *governmental funds* with similar information presented for *governmental activities* in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund Statement of Revenues, Expenditures, and Changes in fund balances provide a reconciliation to facilitate this comparison between *governmental funds* and *governmental activities*. Also, detailed information on the differences in measurement focus, basis of accounting, and financial statement presentation of the fund statements compared to the government-wide statements can be found on pages 49 to 52 of the Notes to the Basic Financial Statements.

The County maintains the following governmental fund types: the General Fund, special revenue funds, debt service funds, and capital projects funds. The County has five special revenue funds: Human Services Fund, Library Fund, the Ballpark Sales Tax Fund, and the funds for the two blended component units, the RRA and the HRA. Information is presented separately in the governmental fund balance sheet and in the governmental fund Statement of Revenues, Expenditures, and Changes in Fund Balances for each of these funds. The basic governmental fund financial statements can be found on pages 34 to 40.

#### **OVERVIEW OF THE FINANCIAL STATEMENTS – CONTINUED**

#### Fund Financial Statements – continued

• **Proprietary funds** provide the same type of information as the business-type activities in the government-wide financial statements, only in more detail. They are divided into two different types of funds: *enterprise funds* and *internal service funds*.

The proprietary fund financial statements provide separate information for the Metropolitan Health Plan (MHP) and Solid Waste *enterprise funds*, both of which are considered to be major funds of the County. Conversely, the *nonmajor enterprise funds* are combined into a single, aggregated presentation in the proprietary fund financial statements.

*Internal service funds* are an accounting device used to accumulate and allocate costs internally among the County's various functions. These funds are also combined into a single, aggregated presentation in the proprietary fund financial statements.

The basic proprietary fund financial statements can be found on pages 42 to 44 of this report. Individual fund data for the nonmajor enterprise funds, as well as for the internal service funds, is provided in the form of *combining statements* in the supplementary information section of this report.

• *Fiduciary funds* are used to account for resources held for the benefit of parties outside the County. Fiduciary funds are *not* reflected in the government-wide financial statement because the resources of those funds are not available to support the County's own programs. The accounting used for fiduciary funds is much like that used for proprietary funds. The basic fiduciary fund financial statement can be found on page 45 of this report.

#### Notes to the Basic Financial Statements

The Notes to the Basic Financial Statements provide additional information that is essential to a full understanding of the data provided in the basic financial statements. The Notes can be found on pages 47 to 78 of this report.

#### **Required and Supplementary Information**

Supplementary information beginning on page 79 includes a schedule of funding progress for the retiree health plan, schedules of revenue and expenditures for individual funds with a comparison of actual revenues and actual expenditures compared to budget and prior year, schedules of expenditures by program for specific funds, and combining schedules for internal service funds. The Notes to Required Supplementary Information are shown on page 89.

#### **GOVERNMENT-WIDE FINANCIAL ANALYSIS**

#### Net Position

As noted earlier, net position serves as an indicator of a government's financial position. In the case of the County, assets and deferred outflows of resources exceeded liabilities by \$1.8 billion at December 31, 2014. The largest portion of the County's net position, \$1.2 billion or 62.7%, reflects the net investment in capital assets (e.g., land, buildings, equipment, roads, and bridges net of any related debt used to acquire those assets that is still outstanding). The County uses these capital assets to provide services to citizens; consequently, these assets are not available for future spending.

#### **GOVERNMENT-WIDE FINANCIAL ANALYSIS – CONTINUED**

#### Net Position – continued

Although the County's investment in capital assets is reported net of related debt, it should be noted that the resources used to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

An additional portion of the County's net position (6.7%) represents resources that are subject to external restrictions on how they may be used. The remaining balance of \$561.8 million is unrestricted net position, which includes the \$350.6 million equity interest in the Medical Center.

At the end of the current fiscal year, the County is able to report positive balances in all reported categories of net position, both for the government as a whole, as well as for its separate governmental and business-type activities. The same situation held true for the prior fiscal year.

#### Summary of Net Position (in millions)

#### GOVERNMENT-WIDE FINANCIAL ANALYSIS – CONTINUED

#### Changes in Net Position – continued

The 2014 increase in net position included \$101.2 million for governmental activities and \$.8 million for business-type activities. The major contributors to the increase are described below.

**Governmental Activities** – Conservative budgeting of revenues and expenses in 2014, combined with the \$7.3 million underspending of budgeted contingency amounts contributed to the large increase in net position. The net position increase was also bolstered by:

- The net position increase relating to the Interchange project was \$45.9 million, as federal, state and local revenues were received during 2014 in support of completed portions of the project.
- The change in equity interest in component unit, a \$14.8 million increase
- Investment earnings were \$12.6 million higher than in 2013, an increase produced by beneficial fluctuations in government bond prices and yields.
- The Human Services Fund experienced an unexpected revenue increase due to clarifications/changes in the State's Income Maintenance Random Moments Time Study guidelines.

#### FINANCIAL ANALYSIS OF THE COUNTY'S FUNDS

As noted earlier, the County uses fund accounting to ensure and demonstrate compliance with financerelated legal requirements.

#### **Governmental Funds**

The focus of the County's *governmental fund statements* is to provide information on near-term inflows, near-term outflows, and balances of net resources. Such information is useful in assessing the County's financing requirements. In the governmental funds in particular, *unassigned fund balance* serves as a measure of available net resources.

As discussed in the financial highlights, the County's governmental funds reported combined ending fund balances of \$608.7 million; an increase of \$123.4 million from the prior year's ending balances. Approximately 22.1% of total governmental fund balance, or \$134.8 million, is included in the unassigned (residual) classification for the General Fund, showing that it has not been restricted, committed, or assigned to specific purposes. The remainder of fund balance in the governmental funds is either in nonspendable form or is classified as restricted, committed, or assigned based on the spending constraints that are in place.

#### FINANCIAL ANALYSIS OF THE COUNTY'S FUNDS - CONTINUED

Governmental fund revenues that changed significantly from the prior year are explained below.

Beginning in 2014, **wheelage tax** revenues of \$9.3 million were collected from vehicle registrations and are to be used for transportation needs, including highway preservation projects and transportation improvements throughout the County.

**Intergovernmental revenue** increased by \$95.7 million, including \$56.1 million of Federal, State, and local revenue relating to the Interchange Project. The Human Services Fund also received \$31.1 million more in intergovernmental revenue compared to 2013. This was primarily due to the State's Income Maintenance Random Moments Time Study clarifications previously mentioned, as well to improvements in the State's Social Services Time Study calculation method used to reimburse counties for administrative costs.

**Investment earnings** of \$11.2 million in 2014 were produced by beneficial fluctuations in government bond prices and yields. Combined with the reversal of the 2013 unrealized loss of \$4.4 million, and the addition of the 2014 year-end unrealized loss of \$1.2 million, investment earnings resulted in a net change of \$11.2 million, a positive variance of \$13.2 million from the previous year.

| Capital Projects  | 137.3     | 9.5%                | 135.1     | 9.5%                | 2.2         | 1.6%              |  |  |
| Total expenditures  | \$1,447.8 | 100.0%              | \$1,424.2 | 100.0%              | \$23.6      | 1.7%              |  |  |

The governmental fund expenditures that changed significantly in 2014 from the prior year included those in the following functional categories:

**General Government** expenditures decreased \$16.8 million from the 2013 level, largely because the County had expended significant funds in 2013 in support of new rail track and bridge projects for assets that were contributed to the Metropolitan Council. Since the projects were substantially completed in 2013, similar expenditures did not occur in 2014.

Expenditures for **Human Services** increased by \$27.5 million in 2014 as compared to 2013 due largely to the regionalization plan to move direct services to community-based sites and to handle the projected increase in the new Medical Assistance cases resulting from the implementation of MNsure, Minnesota's Health Insurance Exchange marketplace for individuals and businesses to compare, choose, and buy health insurance. Additional expenditures were also incurred due to \$4.8 million received from State appropriated bonding and paid to a community agency (the Washburn Center for Children).

**Public Works** expenditures increased by \$12.9 million from 2014 due to wheelage taxes collected and used for highway preservation projects and transportation improvements throughout the County.

#### FINANCIAL ANALYSIS OF THE COUNTY'S FUNDS - CONTINUED

#### **Governmental Funds – continued**

**Intergovernmental** expenditures decreased by \$7.3 million from 2013 because the County issued debt and provided the proceeds to the Minnehaha Creek Watershed District in 2013, while no such provision occurred in 2014.

#### Fund Balances

The **General Fund** is the primary operating fund of the County. At the end of the current fiscal year, the total fund balance for the General Fund was \$198.5 million and unassigned fund balance was \$134.8 million. Comparing the unassigned fund balance and total fund balance to total fund expenditures can be used as a measure of liquidity. The General Fund unassigned fund balance represents 22.1% of the total governmental fund balances and represents 23.4% of the total General Fund expenditures. In 2013, the unassigned fund balance represented 29.8% of total governmental fund balances and 25.8% of General Fund expenditures. The General Fund ended the year with an increase of \$6.8 million in fund balance due primarily to the \$7.3 million underspending of budgeted contingency amounts.

**Human Services Fund** increased by \$12.9 million in fund balance from 2013 primarily due to unexpected increases in revenues relating to the Income Maintenance Random Moments Time Study and the Social Services Time Study.

The \$67.4 million increase in the fund balance of the **General Capital Projects Fund** relates to the issuance of \$100 million of general obligation bonds in November to fund future capital projects. The \$30.4 million increase in fund balance in the **RRA Capital Projects Fund** is primarily due to the 2014 receipt of \$39.4 million received from Federal, State, and local sources for the Interchange project.

The \$2.8 million increase in the fund balance of the **HRA Fund** relates to the provision of County funds to the HRA for the Shady Oak Community Works project and for Transit Oriented Development projects. The \$3.2 million increase in fund balance for the **RRA Fund** was a primarily the result of funds that were contributed from the Minnesota Twins for the Interchange project plaza. Fund balances for **Library**, **Ballpark Sales Tax**, and **Debt Service Funds** did not change significantly in 2014.

#### General Fund Budgetary Highlights

The General Fund 2014 budget did not change significantly between the time of original approval and the time the amended budget was finalized. The revenue budget was increased by \$2 million and the expenditure budget was decreased by \$.3 million.

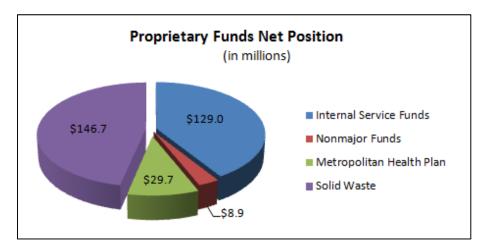

The 2014 budget for property tax revenue (current and delinquent) anticipated a lower collection rate than actually experienced, resulting in property tax revenues that exceeded the budget by \$9.6 million. Intergovernmental revenues were \$6.3 million less than budgeted primarily because sub-recipient spending was lower than originally anticipated, decreasing the amount of revenue to be reimbursed by housing grants. Revenue from charges for services was \$5.9 million lower than budgeted primarily because the real estate market was much slower than originally anticipated, so fees relating document recording for property sales and refinances were lower than in the past 10 years.

On the expenditure side, savings were seen in personal services costs, which were \$4 million under budget primarily because employee health insurance came in \$7.9 million under budget after "premium holidays" were established by the Board for this self-insured program following several years of lower than anticipated claims costs. Expenditures for contractual services were \$9.7 million under budget due primarily because consulting costs in the Resident and Real Estate Services department were \$5 million less than anticipated due to delays in implementing the County's new assessment and tax system, and because amounts paid in support of HCMC uncompensated care were \$2 million less than expected. Additionally, as indicated previously, in the other charges category, only \$1.6 million of the general government's \$8.9 million contingency budget was expended.

## FINANCIAL ANALYSIS OF THE COUNTY'S FUNDS - CONTINUED

#### **Proprietary Funds**

Other than some differences in the treatment of internal service funds, the proprietary fund information reflected in the supplementary information section of this report provides essentially the same data as what is included in the business-type activities in the government-wide financial statements. However, more detail is included to facilitate analysis of individual funds' activities.

Total proprietary fund net position, shown in the chart above, was positive at the end of the year for each fund exhibited. During the year:

- *Enterprise funds'* total net position remained stable with an overall increase of \$.8 million and less than a 3% change in any individual fund.
- Internal Service Funds' total net position decreased overall by \$.7 million. The Self Insurance Fund reported the largest percentage decrease in net position during 2014. This \$2.5 million change was primarily due to an increase in the actuarially determined workers' compensation liability and increased case reserves. The Employee Health Plan Self Insurance Fund reported a \$4.6 million decrease in net position due to premium "holidays" approved by the County Board. Offsetting these decreases, the Information Technology Fund net position increased \$3.2 million in 2014 primarily due to projects that did not move forward as quickly as had been anticipated, so those expenses will be pushed into 2015. Additionally, the Central Mobile Equipment Fund net position increased \$2.8 million, due to capital contributions and revenues collected for the cost of future vehicle replacements.

#### **Fiduciary Fund**

The County maintains one fiduciary fund, an agency fund used to account for assets that the County holds for others in an agency capacity, including pass-through grants that are equivalent to pure cash conduits; client, inmate, and other governmental agency funds held in the custody of the County; and revenues collected on behalf of other governmental units related to property taxes. Amounts held or due as agent at year-end totaled \$131.2 million, a 3.1% decrease from the prior year.

#### CAPITAL ASSET AND DEBT ADMINISTRATION

#### **Capital Assets**

As shown in the table below, the County's net capital assets for both governmental and business-type activities as of December 31, 2014, totals \$1.8 billion. Capital assets include land, buildings, improvements, software, equipment, roads and bridges, library collections, art, and historical treasures.

Net capital assets increased \$36.7 million during 2014. The governmental activities' net increase resulted largely from \$10.2 million capitalized in 2014 for the Interchange Project, which includes the new Target Field Station that serves as a central, multi-modal transportation hub in downtown Minneapolis. Construction was also completed on the new Emergency Communications Facility in Plymouth with an additional \$9.6 capitalized during the year. During 2014, \$14.1 million of infrastructure additions were related to the reconstruction of County State Aid Highway 101 in Minnetonka, Wayzata, and Woodland. Additions to the Hennepin Energy Recovery Center contributed to the \$3.7 million net increase in business-type activities net capital assets.

The table below summarizes the County's change in net capital assets during 2014. Additional information on the County's capital assets can be found in Note 5 on pages 59 to 60 of this report.

|  | Hennep                     | in County's C<br>(in million | apital Assets<br>s) |         |           |           |  |

#### **Debt Administration**

As shown in the table on the following page, G.O. bonds and notes increased by \$52.2 million from 2013 to 2014. An additional \$100 million of G.O. bonds was issued for upcoming countywide capital projects. During the year, G.O. refunding bonds totaling \$80.6 million were issued to refund existing bonds for a total economic gain of \$11 million over 13 years. In addition to regularly scheduled 2014 principal payments, the County made optional payments of \$10 million for the early redemption of sales tax revenue bonds.

## CAPITAL ASSET AND DEBT ADMINISTRATION – CONTINUED

#### Debt Administration – continued

State law limits the amount of G.O. debt that counties can issue to an amount equal to 3.0% of the taxable market value of property. The County's outstanding G.O. debt is significantly below the \$3.1 billion statutory limit.

The County's credit ratings on long-term GO bonds as of December 31, 2014 were:

Standard and Poor's Ratings Services AAA Fitch Ratings AAA

Additional information on the County's long-term debt can be found in Notes 10 and 11 on pages 66 to 70 of this report and on the Schedule of Changes in Long-term Debt, located on pages 104 through 107.

#### ECONOMIC FACTORS AND NEXT YEAR'S BUDGET

The 2015 Hennepin County governmental and enterprise fund budgets total \$1.82 billion, including a net property tax levy of \$679.5 million. The budget for 2015 increased \$26.7 million (1.5%) from the final 2014 budget. The property tax levy is an increase of \$15.6 million (2.4% higher) than the 2014 level. The 2015 budget includes funding for a total of 7,664.4 FTEs, representing a 1.7% increase over 2014. New positions are targeted to address emerging needs and critical staffing shortages in areas such as Human Services child-protection, child support, and case management; NorthPoint Health and Wellness direct patient care; and Community Corrections adult probation.

The 2015 capital budget increased \$47.9 million compared to the 2014 final budget level. The \$256.9 million capital budget includes \$105.6 million for various road and bridge projects; the transportation capital budget benefits from \$9.3 million of budgeted wheelage tax, a tax implemented in 2014. The capital budget includes \$48.3 million for the construction of the new South Minneapolis Regional Human Services Center at the Hiawatha-Lake Street intersection, and \$14.7 million for library renovations and new construction, such as \$9.2 million for the on-going construction of the new Brooklyn Park Library. The County also continues to fund projects at the Medical Center, and the budget includes \$20 million for a new Ambulatory Outpatient Specialty Center.

The 2015 budget for general debt service totals \$135.9 million. The 2015 property tax requirement for debt service increased \$2.7 million to \$82.9 million, an increase of 3.4%.

#### ECONOMIC FACTORS AND NEXT YEAR'S BUDGET- CONTINUED

The overall economic environment relating to the 2015 budget was improved compared to recent years. The state of Minnesota budget is in substantially better shape than in the recent past, with a forecasted \$1.2 billion surplus for the biennium ending on June 30, 2015. Continued growth in employment and income is contributing to the increase in the state's forecasted revenues. Hennepin County's unemployment rate at year-end 2014 was 3.7%, better than the state and national rates of 4.1% and 6.2%, respectively. On the national side, regular economic momentum has contributed in an improved economic outlook as well. Economic activity is expected to grow through 2015 as a result of an upturn in consumer spending, an improved housing market, and increased capital equipment and infrastructure investment. The result is less uncertainty for state and local governments.

## **REQUESTS FOR INFORMATION**

This financial report is designed to provide an overview for those interested in the County's finances. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to the Hennepin County Office of Budget and Finance, A-2301 Government Center, Minneapolis, MN 55487-0231, or readers may call (612) 348-5125. # Hennepin County, Minnesota Reconciliation of the Governmental Funds Balance Sheet to the Statement of Net Position December 31, 2014

| Total governmental fund balances (page 35)  | \$<br>608,696,327   |
|---|---------------------|
| Amounts reported for governmental activities in the statement of net position are different because:  |                     |
| <b>Capital assets</b> used in governmental activities are not financial resources and, therefore, are not reported in the funds. (The capital assets of the internal service funds that serve governmental activities are included in a separate reconciling item.)   | 1,634,037,158       |
| The equity interest in component unit is not a current financial resource and, therefore, is not reported in the governmental fund statements.  | 350,620,319         |
| <b>Certain assets</b> are not available to pay for current-period expenditures and, therefore, are not reported as revenues in the current period, but instead are deferred in the funds.   | 123,285,814         |
| The <b>lease receivable</b> from component unit is not reported in the primary government's fund statements because that receivable is offset by an equal amount of long-term debt not reported at the fund level.  | 2,914,378           |
| <b>Internal service funds</b> are used by management to charge the costs of certain activities to individual funds. The assets and liabilities of internal service funds that primarily serve govermental activities are included in governmental activities in the statement of net position. This reconciling item includes the adjustment to eliminate internal service fund surpluses and |                     |
| deficits.   | 144,335,638         |
| Long-term liabilities and related deferred outflows are not reported in the funds because the liabilities are not due and payable in the current period.  | (1,212,864,301)     |

#### Hennepin County, Minnesota Reconciliation of the Statement of Revenues, Expenditures, and Changes in Fund Balances of Governmental Funds to the Statement of Activities For the Year Ended December 31, 2014

| Amounts reported for governmental activities in the statement of activities are different because:       Capital outlays are reported by governmental funds as expenditures. However, in the statement of activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. This is the amount by which capital outlays exceeded depreciation in the current period.       35,440,711         The net effect of capital asset disposals, sales, and donations is to decrease net position in the Statement of Activities. These amounts are not reported in the governmental funds because they do not affect current financial resources. Governmental funds.       (1,353,936)         The change in the equity interest in component unit reported in the statement of activities does not provide current financial resources and is not reported in the governmental funds.       (2,811,862)         Lease payments received from component unit provide current financial resources (revenue) to governmental funds. However, in the statement of activities the payment instead reduces the lease receivable balance.       (2,811,862)         Revenues in the statement of activities that do not provide current financial resources are not reported as revenues in the governmental funds.       (34,986,850)         The issuance of long-term debt (e.g., bonds, leases) provides current financial resources are not reported and amortized in the statement of activities. This amount is the net effect of these differences in the treatment of activities. This amount is the net effect of these differences in the treatment of activities.       (34,986,850)         The issuance of long-term debt.       (5,832,444       (37,504,966)       (37,504,966  | Net change in governmental fund balances (page 39)  | \$   | 123,385,541  |

## **1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

#### A. The Financial Reporting Entity

Hennepin County (the County) was established in 1852 as an organized county having powers, duties, and privileges granted counties by Minnesota Statutes. The County is governed by a seven-member board of commissioners elected from districts within the County. As required by accounting principles generally accepted in the United States of America (GAAP), these financial statements present the activities of the County and its blended component units (the primary government), as well as its discretely presented component unit. While legally separate entities, the blended component units discussed below are included as part of the primary government, due to their governance structure and the significance of their operational and financial relationships with the County. The County's discretely presented component unit is also a legally separate entity; however discrete presentation is required because this component unit's governing board is not essentially the same as the governing board of the County. Each component unit has a December 31 year end.

#### **Blended Component Units**

The Hennepin County Regional Railroad Authority (RRA) provides for the preservation and improvement of local rail service for agriculture, industry, or passenger traffic when determined to be practicable and necessary for the public welfare. The county commissioners comprise the entire RRA board, a financial benefit or burden relationship exists, and management of the County has operational responsibility for the RRA. The RRA is included in the County's governmental funds, and separately issued financial statements can be obtained from the RRA.

The Hennepin County Housing and Redevelopment Authority (HRA) provides for the development of housing, the expanding of the tax base, increasing jobs, and industrial and commercial development. The county commissioners comprise the entire HRA board, a financial benefit or burden relationship exists, and management of the County has operational responsibility for the HRA. The HRA is included in the County's governmental funds, and separately issued financial statements can be obtained from the HRA.

#### **Discretely Presented Component Unit**

Hennepin Healthcare System, Inc. d.b.a. Hennepin County Medical Center (the Medical Center), engages in the organization and delivery of healthcare and related services to the general public and conducts related programs and research. The Medical Center functions as a principal crisis and emergency treatment center, and as a teaching and research institution. The County has ownership and governing rights and obligations, including the review and approval of the annual capital and operating budgets and the annual health service plan. Land and buildings used by the Medical Center are owned by the County and leased to the Medical Center; therefore these assets are reported by the Medical Center, rather than the County. Separately issued Medical Center financial statements can be obtained from the Medical Center.

## 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – CONTINUED

#### B. Measurement Focus, Basis of Accounting and Financial Statement Presentation

The annual financial report includes two separate sets of statements, the government-wide financial statements and the fund financial statements. The measurement focus, basis of accounting and basis of presentation differs between the government-wide financial statements and the fund financial statements. These differences, along with an explanation of the differing purposes and information provided by these separate financial statements, are described in the sections below.

#### Government-wide Financial Statements

The government-wide financial statements (i.e., the Statement of Net Position and the Statement of Activities) report information on all of the nonfiduciary activities of the primary government and its component unit using the *economic resources measurement focus* and the *accrual basis of accounting*. The economic resources measurement focus results in the reporting of all inflows, outflows, and balances affecting or reflecting the County's net position. Under the accrual basis of accounting, revenues are recognized when earned and expenses are recognized when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which the taxes are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met. As a general rule, the effect of interfund activity has been eliminated from the government-wide financial statements. Exceptions to this general rule are charges between the County's various functions where elimination would distort the direct costs and program revenues reported for the functions concerned.

Both of the government-wide financial statements distinguish between functions of the County that are principally supported by taxes and intergovernmental revenues (*governmental activities*) from other functions that are intended to recover all or a significant portion of their costs through user fees and charges (*business-type activities*). The two government-wide statements also distinguish between the primary government and the discretely presented component unit. The structure of these two statements is further described in the following two paragraphs.

Statement of Net Position – This statement is designed to display the financial position of the County and its component units. The County reports all capital assets, including infrastructure, and all long-term liabilities, such as long-term debt. The net position of the County is reported in three categories 1) net investment in capital assets; 2) restricted; and 3) unrestricted. Restrictions reported are those imposed by parties outside the County, such as creditors, grantors, contributors, laws and regulations of other governments, or imposed by law through enabling legislation. When both restricted and unrestricted resources are available for use, it is the government's policy to use restricted resources first, and then unrestricted resources as they are needed. Internal service funds have been consolidated into the governmental activities that they primarily benefit.

Statement of Activities – This statement demonstrates the degree to which the direct and indirect expenses of a given function or segment are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function. Indirect expenses are allocated based on the annual County-wide Cost Allocation Plan. Program revenues include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment, and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function. Taxes and other items not properly included among program revenues are reported as general revenues. Just as the Statement of Net Position includes all capital assets, the Statement of Activities includes all depreciation expense. In the Statement of Activities, the operations of internal service funds have been consolidated into the governmental activities that they primarily benefit.

## 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - CONTINUED

#### B. Measurement Focus, Basis of Accounting and Financial Statement Presentation

#### Fund Financial Statements

The accounts of the County are organized on the basis of funds. A fund is an independent fiscal and accounting entity with a self-balancing set of accounts. The minimum number of funds is maintained consistent with legal and managerial requirements. All individual funds considered major are reported as separate columns in the fund financial statements. Fund accounting segregates funds according to their intended purpose and is used to aid management in demonstrating compliance with finance-related legal and contractual provisions. Separate financial statements are provided for governmental funds, proprietary funds, and the fiduciary fund.

#### **Governmental Funds**

Governmental fund financial statements are reported using the *current financial resources measurement focus* and the *modified accrual basis of accounting*. The current financial resources measurement focus results in the reporting of only near-term (current) inflows, outflows, and balances of expendable (spendable) financial resources. Under the modified accrual basis of accounting, revenues are recognized when susceptible to accrual (i.e., when they are "measurable and available"). "Measurable" means the amount of the transaction can be determined and "available" means collectible within the current period or soon enough thereafter to pay liabilities of the current period.

The County considers revenues, including property tax revenues, to be available if they are collected within 60 days after year-end. Expenditures are recorded when the related fund liability is incurred. However, debt service expenditures, as well as expenditures related to claims and judgments, compensated absences, and other postemployment benefits, are recorded only when payment is due.

In applying the susceptible to accrual concept under the modified accrual basis, the following revenue sources are deemed both measurable and available: property taxes when levied for; and investment earnings, charges for services, and intergovernmental revenue when eligibility requirements are met. Changes in the fair value of investments are recognized in investment earnings (losses) at the end of each year. Fines, forfeitures, licenses, and permit revenues are recorded when cash is received by the County because they are generally not measurable until actually received.

The County reports the following governmental funds:

The *General Fund* is the County's primary operating fund. It accounts for all financial resources of the general government except those required to be accounted for in another fund. The fund is used to account for revenues and expenditures necessary to carry out basic governmental activities relating to areas such as administration, legal, public safety, assessment, tax collection, roads and bridges.

## 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - CONTINUED

#### B. Measurement Focus, Basis of Accounting and Financial Statement Presentation

#### **Governmental Funds – continued**

*Special revenue funds* are governmental funds that account for revenue sources that are legally restricted (by parties outside the County as well as those imposed by the County) to expenditure for specific purposes other than major capital projects. The County reports five special revenue funds.

- The *Human Services Fund* is used to account for specific state and federal revenues, property taxes levied specifically for human services, and expenditures for financial, social and public health services.
- The *Library Fund* is used to account for County-committed property tax revenues and for expenditures relating to the activities of the County's public libraries.
- The *Ballpark Sales Tax Fund* is used to account for the inflows of cash from taxpayers to the trustee and transfers to other funds for repayment of Ballpark related bonds, Minnesota Ballpark Authority operating costs, and other expenditures allowed under legislation.
- The *Regional Railroad Authority Fund* is used to account for property taxes levied by the RRA and expenditures relating to the preservation and improvement of local rail service for agriculture, industry, or passenger traffic when determined to be practicable and necessary for public welfare.
- The *Housing and Redevelopment Authority Fund* is used to account for property taxes levied by the HRA and expenditures relating to the development of housing, the expanding of the tax base, increasing jobs, and industrial and commercial development.

*Debt service funds* account for the servicing of general long-term debt not being financed by proprietary funds. Debt service funds include the General Debt Service Fund, used to account for County levy supported bonds and notes, as well as revenue bonds, and the Regional Railroad Authority Debt Service Fund, used to account for debt issued by the RRA.

*Capital Projects Funds* account for the acquisition of certain capital assets or the construction of major capital projects not being financed by proprietary funds, such as construction costs of libraries, roads, bridges, and other construction and improvement projects. The County reports two capital projects funds, the *General Capital Projects Fund* and the *Regional Railroad Capital Projects Fund*.

#### **Proprietary Funds**

The proprietary funds use the economic resources measurement focus and the accrual basis of accounting. The economic resources measurement focus results in the reporting of all inflows, outflows, and balances affecting or reflecting the fund net position. Under the accrual basis of accounting, revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met. Proprietary funds distinguish operating revenues and expenses from nonoperating items.

Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the proprietary funds are charges to customers for sales and services. Operating expenses for enterprise funds and internal service funds include the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

# 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – CONTINUED

#### B. Measurement Focus, Basis of Accounting and Financial Statement Presentation

The County reports the following proprietary funds:

*Enterprise funds* are proprietary funds used to account for those operations that are financed and operated in a manner similar to private business or where the Board of County Commissioners has decided that the determination of revenues earned, costs incurred, and/or net income is necessary for management accountability. Data from two nonmajor funds are combined into a single aggregate presentation. Individual fund data for each of the nonmajor enterprise funds is provided in the form of combining statements in the Supplementary Information – Enterprise Funds section of this report. The enterprise funds that the County considers to be major funds include:

- The *Metropolitan Health Plan Fund* (MHP) is used to account for state-authorized health maintenance organization operations. MHP provides comprehensive coverage to enrollees who are eligible for state and federal funded health programs including Medicaid Expansion, Minnesota Senior Care Plus, Minnesota Senior Health Options, and Special Needs Basic Care.
- The Solid Waste Fund is used to account for the management of the solid waste system pursuant to Hennepin County Ordinance 15 and MN Statutes 473.84 and 400.08. Fund activities include the resource recovery facilities, transfer stations, recycling and household hazardous waste programs, and the environmental response fund program. All money received by the Solid Waste Fund is restricted for the purposes of providing solid waste activities, functions, and facilities.

*Internal service funds* account for the financing of goods or services provided by one department or agency to other departments or agencies of the government, or to other governmental units, on a cost-reimbursement basis.

- The *Central Services Fund* is used to account for receiving and distribution, mail handling, printing, the countywide multi-function device program, paper recycling, and surplus furnishings and equipment services.
- The *Central Mobile Equipment Fund* is used to account for the costs of purchasing, operating, and replacing all automotive and other mobile equipment used by departments.
- The *Information Technology Fund* is used to account for the costs of data processing and data processing equipment leasing services provided to departments.
- The *Energy Center Fund* is used to account for the costs of operating the Energy Center, which provides heat and air conditioning primarily to County-owned facilities.
- The *Self Insurance Fund* is used to account for workers' compensation and tort liabilities, and for amounts relating to building and contents property insurance retentions.
- The *Employee Health Plan Self Insurance Fund* is used to account for the County's self-insured health benefit plan.
- The Other Employee Benefits Fund is used to account for earned and unused compensated absences and other postemployment benefit obligations for governmental funds.

#### **Fiduciary Funds**

The County has one fiduciary fund, an agency fund, which is custodial in nature and does not present results of operations or have a measurement focus. The Agency Fund is accounted for using the accrual basis of accounting. This fund is used to account for assets that the County holds for others in an agency capacity, including pass-through grants that are equivalent to pure cash conduits; client, inmate, and other governmental agency funds held in the custody of the County; and revenues collected on behalf of other governmental units related to property taxes.

# 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - CONTINUED

#### C. Assets, Liabilities, Deferred Outflows/Inflows of Resources, and Fund Balance/Net Position

#### **Cash and Investments**

The County maintains an investment pool for substantially all cash and investments. Each fund's portion of the pool is reported as "cash" or "restricted cash." For County funds that receive investment earnings, the allocation of those earnings is based on average monthly balances of cash and investments. Investments are stated at fair value. The fair value of investments is based on quoted market prices. State law authorizes the County to invest in the following instruments: U.S. government and agency issues; repurchase agreements; reverse repurchase agreements; certificates of deposit; money market funds; general obligations of state, local, and housing finance agencies that are rated "A" or better by a national bond rating service; bankers acceptances; commercial paper; futures contracts; guaranteed investment contracts; options; and shares of certain investment companies.

#### **Interfund Receivables and Payables**

Transactions between funds that are representative of lending/borrowing arrangements, as well as unpaid amounts of interfund services provided and used that are outstanding at the end of the year are referred to as "interfund receivables/payables." Balances outstanding between the governmental activities and business-type activities are reported in the government-wide financial statements as "internal balances."

#### Receivables

Taxes receivable are reported net of the allowance for uncollectible delinquent taxes, which is an estimate based on historical collection experience. All other receivables are reported net of any allowance for uncollectible accounts based on collection experience and management's evaluation of the current status of existing receivables. Receivable amounts relating to intergovernmental revenues are generally reimbursement based, with no allowance for uncollectible accounts necessary. The portion of all receivables not included in the allowance and not collected within 60 days is offset by deferred inflows of resources in the governmental fund financial statements.

#### **Inventories and Prepaid Items**

All inventories are reported at the lower of cost or market, using the first-in, first-out consumption method. Expenditures or expenses are recognized in the funds when inventories are consumed. Inventories of supplies are reported at cost. The County does not hold any inventories for resale. Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in both government-wide and fund financial statements. Governmental fund inventories and prepaid items are offset by nonspendable constraint of fund balance. The cost of prepaid items is reported as expenditures/expenses when consumed, rather than when purchased.

#### **Capital Assets**

Capital assets are reported in proprietary fund financial statements and in the applicable governmental or business-type activities columns in the government-wide financial statements. Capital assets include property, plant, infrastructure, equipment, library materials, and intangible assets. Capitalization thresholds are \$5,000 for equipment; \$250,000 for improvements and intangibles; and \$500,000 for land, buildings and infrastructure. Capital assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair market value at the date of donation. In governmental funds, capital outlay and capital projects expenditures include expenditures for capital assets, as well as for items that are capital in nature but do not qualify for financial reporting as capital assets under the County's capitalization policy. The costs of maintenance and repairs that do not add to the value of the asset or materially extend the life of an asset are not capitalized (e.g., road overlays). In proprietary funds, outlays for capital assets are capitalized as the projects are constructed. Interest is capitalized when there is a period of time required to prepare the capital asset for use.

## 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - CONTINUED

#### C. Assets, Liabilities, Deferred Outflows/Inflows of Resources, and Fund Balance/Net Position

#### Capital Assets – continued

Capital assets are depreciated or amortized using the straight-line method over the following estimated useful lives:

| Buildings and in<br>Leasehold import<br>Land improvem | rovements                         | 20-50 years<br>Initial lease term<br>10-25 years |
|---|-----------------------------------|--|
|   | Major river crossings             | 90 years   |
|   | Conventional bridges              | 50-70 years                                      |
|   | County roads                      | 60 years   |
| Equipment:  | Automobiles and light trucks      | 4-6 years  |
|   | Construction/maintenance vehicles | 10-20 years                                      |
|   | General equipment                 | 10 years   |
|   | Computer equipment                | 3-4 years  |
| Software  |                                   | 3-7 years  |
| Library books and materials                           |                                   | 7 years  |
| Intangible asse                                       | 3-8 years                         |  |

#### **Employee Compensated Absences**

It is the County's policy to permit employees to accumulate earned but unused compensated absences. Under certain conditions, employees are compensated upon termination of employment for their accumulated unpaid vacation, paid time off, and sick leave up to a maximum number of hours. The County has chosen the option of using an Internal Service Fund to account for the cost and liquidation of the governmental funds' compensated absences. As a result, the County reports these estimated earned and unused benefits on a full accrual basis.

#### **Long-Term Obligations**

In the government-wide and proprietary fund statements of net position, long-term debt and other longterm obligations are reported as liabilities. Bonds payable are reported net of the applicable bond premiums and discounts, which are deferred and amortized over the life of the bonds using the interest method. Bond issuance costs are expensed in the period issued. In governmental funds, the proceeds from the issuance of debt and debt premiums are reported as other financing sources, while discounts on debt issuances are reported as other financing uses. Issuance costs and debt principal payments are reported as governmental fund expenditures.

#### **Deferred Outflows/Inflows of Resources**

In addition to assets, the statement of financial position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element represents a consumption of net position that applies to future periods and so will not be recognized as an outflow of resources (expense/expenditure) until then. The County reports a deferred charge on refunding in this manner in the government-wide statement of net position. A deferred charge on debt refunding results from the difference in the carrying value of refunded debt and its reacquisition price. This amount is deferred and amortized over the shorter of the life of the refunded or refunding debt.

In addition to liabilities, the statement of financial position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element represents an acquisition of net position that applies to future periods and so will not be recognized as an inflow of resources (revenue) until that time. Only the County's governmental fund unavailable revenue items are in this category. These amounts are deferred and recognized as an inflow of resources in the period that the amounts become available.

# 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - CONTINUED

#### C. Assets, Liabilities, Deferred Outflows/Inflows of Resources, and Fund Balance/Net Position

#### Fund Balance and Net Position

In the governmental fund financial statements, fund balance is reported in the following classifications that are based on the spending constraints placed on the resources:

- Nonspendable fund balance amounts that are not in a spendable form (such as inventory).
- Restricted fund balance amounts constrained to specific purposes by their providers (such as grantors, bondholders, or higher levels of government) or imposed by law through enabling legislation.
- Committed fund balance amounts constrained to specific purposes by the County Board as approved or rescinded in a Board Resolution.
- Assigned fund balance amounts constrained by the County's intent to be used for specific purposes, but are neither restricted nor committed. As adopted in 2010 on Board Resolution 10-0431R2, the County Board, County Administrator, Deputy County Administrator, and the Director of the Office of Budget and Finance have the authority to assign fund balance.
- Unassigned fund balance amounts included in the residual classification for the General Fund that have not been restricted, committed, or assigned to specific purposes, and deficit fund balances of the other funds.

When an expenditure is incurred for purposes for which both restricted and unrestricted fund balance is available, restricted fund balance is used first. When an expenditure is incurred for which unrestricted fund balance is to be used, committed amounts are used first, followed by assigned, and then unassigned.

In the enterprise fund and government-wide financial statements, the net investment in capital assets portion is reported separately. Restricted net position is reported for amounts that are legally restricted by outside parties to be used for a specific purpose or imposed by law through enabling legislation. The unrestricted component of net position consists of the net amount of the assets, deferred outflows of resources, and liabilities that are not included in the determination of the other two components of net position.

#### D. Comparative Data, Reclassifications, and Use of Estimates

Comparative total data for the prior year have been presented in selected sections of the accompanying financial statements and footnotes in order to provide an understanding of certain changes in the County's financial position and operations. Also, certain amounts presented in the prior year data have been reclassified in order to be consistent with the current year's presentation. The basic financial statements include certain prior-year summarized comparative information in total but not at the level of detail required for a presentation in conformity with generally accepted accounting principles. Accordingly, such information should be read in conjunction with the government's financial statements for the year ended December 31, 2013, from which the summarized information was derived.

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, deferred outflows/inflows, and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenditures during the reporting period. Actual results could differ from these estimates.

# 2. RECONCILIATION OF GOVERNMENT-WIDE AND GOVERNMENTAL FUND FINANCIAL STATEMENTS

# Explanation of certain differences between the governmental fund Balance Sheet and the government-wide Statement of Net Position:

The basic financial statements include a reconciliation of the governmental fund balance sheet to the Statement of Net Position. The capital assets element of that reconciliation consists of the following:

| Capital assets used in governmental activities (note that the capital assets of the internal service funds that serve governmental activities are included in a separate reconciling item.) | \$ 2,508,747,981 |
|---|------------------|
|   | (874,710,823)    |
| Total Capital Assets Reconciliation Item  | \$ 1,634,037,158 |

The long-term liabilities element of that reconciliation consists of the following:

| General obligation (G.O.) bonds and notes payable                     | \$   | (893,880,000)   |
|---|------|-----------------|
| Net G.O. premiums and discounts (to be amortized as interest expense) |      | (53,275,842)    |
| Revenue bonds   |      | (259,560,000)   |
| Revenue bond premiums (to be amortized as interest expense)           |      | (7,339,972)     |
| Lease revenue certificate of participation (COP) payable              |      | (2,985,000)     |
| C.O.P. premiums (to be amortized as interest expense)                 |      | (220)           |
| Notes payable   |      | (5,899,012)     |
| Accrued interest payable  |      | (3,324,672)     |
| Deferred charge on debt refunding                                     |      | 13,400,417      |
| Total Long-Term Liabilities Reconciliation Item                       | \$ ( | (1,212,864,301) |

# Explanation of certain differences between the governmental fund Statement of Revenues, Expenditures, and Changes in Fund Balances and the government-wide Statement of Activities:

The basic financial statements include a reconciliation of the governmental fund Statement of Revenues, Expenditures, and Changes in Fund Balances to the government-wide Statement of Activities. The details of one element of that reconciliation, the amount by which capital outlays exceeded depreciation, follow:

| Capital outlay<br>Less depreciation expense                                | \$ 87,570,111<br>(52,129,400) |
|--|-------------------------------|
| Total Capital Outlays and Depreciation Reconciliation Item                 | \$ 35,440,711                 |
| The reconciling item relating to long-term debt consists of the following: |                               |
| Issuance of debt   | \$ (180,615,000)              |
| Bond premiums  | (31,239,950)                  |
| Principal repayments – G.O. debt   | 76,428,912                    |
| Principal repayments – refunding bonds                                     | 78,901,088                    |
| Principal repayments – Ballpark revenue bonds                              | 15,690,000                    |
| Principal repayments – note payable  | 518,092                       |
| Principal repayments – lease revenue certificate of participation          | 2,811,862                     |
| Total Long-term Debt Reconciliation Item                                   | \$ (37,504,996)               |

#### 3. DEPOSITS WITH FINANCIAL INSTITUTIONS AND INVESTMENTS

#### **Deposits with Financial Institutions**

It is the County's policy to follow MN Statute 118A.03, which states that to the extent that funds deposited are in excess of available federal deposit insurance, the County must require the financial institution to furnish collateral security or a corporate surety bond. All collateral must be placed in safekeeping in a restricted account at a Federal Reserve Bank or in an account at a trust department of a commercial bank or other financial institution not owned/controlled by the financial institution furnishing the collateral.

At year end, the bank balance was \$76,259,607. The bank balance was covered by either federal depository insurance, surety bonds, or by collateral held by the County's agent in the County's name. The carrying amount of deposits at year end was \$66,553,574. County, fiduciary, and discretely presented component unit cash and investments are pooled.

#### Management of Investment Risk

At December 31, 2014, the County had the following investments. Effective duration is shown in years.

| Nonfiduciary Investments  | Fair Value  | Effective Duration           |
|---|---|------------------------------|
| U.S. government and agency<br>Municipal securities<br>Repurchase agreements<br>Money market funds | \$ 945,627,386<br>6,155,881<br>138,108,545<br>7,000,749 | 1.81<br>1.58<br>0.01<br>0.13 |
| Total fair value  | \$ 1,096,892,561  |                              |
| Effective duration  |   | 1.57                         |

*Interest Rate Risk.* Through its investment policy, the County manages exposure to fair value losses arising from increasing interest rates by limiting the effective duration of the investment portfolio to six years or shorter. It is the County's practice to generally ensure that investments can be held to maturity if necessary.

*Credit Risk.* The County's investments in the bonds of U.S. government and agencies were rated AA+ to A by Standard & Poor's and Aaa to A2 by Moody's Investors Service. The County's investments in municipal securities and money market funds were rated Aa2 and Aaa, respectively, by Moody's Investors Service. The County's general investment policy is to apply the prudent-investor rule: investments are made as a prudent investor would be expected to act. County policy allows investment in all instruments authorized by State law (detailed in Note 1), with the exception of:

- Bankers acceptances
- Shares of investment companies

*Concentration of Credit Risk.* The County primarily invests in U.S. government and agency issues and, therefore, places no limit on the amount that may be invested in any one issuer. More than 5% of the fair value of the County's total investments is in each of the following: Federal Home Loan Mortgage Corporation (35%), Federal Home Loan Bank (23%), and Federal National Mortgage Association (19%).

*Custodial Credit Risk.* For an investment, custodial credit risk is the risk that, in the event of the failure of the counterparty, the County will not be able to recover the value of investments or collateral securities that are in the possession of an outside party. The County purchases securities in such a manner that the securities are insured, registered in the County's name, or are in the possession of the County's trustee or held by a custodial bank for the County under a tri-party agreement.

#### 3. DEPOSITS WITH FINANCIAL INSTITUTIONS AND INVESTMENTS – CONTINUED

#### Investment Income, Realized Gains and Losses, and Unrealized Gains and Losses

Cash from all funds is pooled for deposit and investment purposes. In accordance with legal restrictions, investment earnings from pooled deposits and investments are recorded in the funds shown in the table below. Investment earnings are allocated based on average monthly cash and investment balances. The net change in the fair value of investments is reported as a component of total investment earnings. A detail, by fund type, of this activity for 2014 is as follows:

| Fund                      | Investment Income<br>and Realized<br>Gains and Losses | Net Increase in<br>the Fair Value of<br>Investments | Total<br>Investment<br>Earnings |
|---------------------------|---|---|---------------------------------|
| Governmental Funds:       |   |   |                                 |
| General                   | \$ 7,446,635  | \$ 3,115,355  | \$ 10,561,990                   |
| Special Revenue:          |   |   |                                 |
| Library                   | 52,315  | 26,767  | 79,082                          |
| Ballpark Sales Tax        | 786   | -   | 786                             |
| Housing and Redevelopment | 72,010  | 18,868  | 90,878                          |
| Regional Railroad         | 252,332   | 89,089  | 341,421                         |
| Debt Service              | 424   | -   | 424                             |
| Capital Projects          | 120,465   | (6,095)   | 114,370                         |
|                           | 7,944,967   | 3,243,984   | 11,188,951                      |
| Proprietary Funds:        |   |   |                                 |
| Enterprise:               |   |   |                                 |
| Metropolitan Health Plan  | 577,602   | 249,910   | 827,512                         |
| Solid Waste               | 333,681   | 241,342   | 575,023                         |
|                           | 911,283   | 491,252   | 1,402,535                       |
| Total                     | \$ 8,856,250  | \$ 3,735,236  | \$ 12,591,486                   |

A summary comparing the results of stating investments at fair value follows:

|   | 2014          | 2013           |
|---|---------------|----------------|
| Investment income and realized gains and losses                 | \$ 8,856,250  | \$ 8,270,776   |
| Net annual increase (decrease) in the fair value of investments | 3,735,236     | (10,793,344)   |
| Total Investment Earnings (Losses)                              | \$ 12,591,486 | \$ (2,522,568) |

The calculation of realized gains and losses is independent of the calculation of the net change in the fair value of investments. Realized gains and losses on investments that had been held in more than one fiscal year and sold in the current year are included as a change in the fair value of investments in the current year.

#### 4. RESTRICTED CASH AND INVESTMENTS

Proprietary fund assets are reported as restricted based on applicable legal requirements. Restrictions indicate the asset may only be used for a specific purpose that is narrower than the purpose of the fund or funds indicated by the column heading. Cash and investment restrictions are shown below.

- \$500,000 MHP cash restricted by MN statute 62D.041 for protection in the event of insolvency
- \$9,011,644 Solid Waste Fund Environmental Response Program cash and investments restricted for purposes specified by Minnesota statutes, section 383B.81.
- Grant proceeds totaling \$419,361 are restricted in the Solid Waste Fund for conservation programs and the cleanup of brownfields.

#### 5. CAPITAL ASSETS

Capital asset activity for the year ended December 31, 2014 was as follows:

|  | Balance<br>January 1,<br>2014 | Additions<br>and<br>Transfers In | Deletions<br>and<br>Transfers Out | Balance<br>December 31,<br>2014 |
|--|-------------------------------|----------------------------------|-----------------------------------|---------------------------------|
| Governmental Activities:                     |                               |                                  |                                   |                                 |
| Capital assets not being depreciated:        |                               |                                  |                                   |                                 |
| Art & historical treasures                   | \$ 4,694,247                  | \$ 37,818                        | \$-                               | \$ 4,732,065                    |
| Land   | 107,358,437                   | 10,538                           | -                                 | 107,368,975                     |
| Construction in progress – infrastructure    | 111,766,511                   | 78,413,578                       | (106,261,177)                     | 83,918,912                      |
| Total capital assets not being depreciated   | 223,819,195                   | 78,461,934                       | (106,261,177)                     | 196,019,952                     |
| Capital assets being depreciated:            |                               |                                  |                                   |                                 |
| Buildings                                    | 742,969,664                   | 68,869,129                       | (3,317,544)                       | 808,521,249                     |

#### 6. RECEIVABLES – CONTINUED

#### **Taxes Receivable**

Property tax liens attach on the first Monday of the year following property assessment. Tax levies are certified to the county auditor five business days after December 20 of the year the property is assessed. The taxes levied are payable in the following year in two equal installments. The amounts and due dates for taxes on real property are half on or before May 15 and the balance on or before October 15. Personal property taxes are due in one installment on May 15. The amount of the allowance for uncollectible delinquent taxes is an estimate based on historical collection experience. Estimated uncollectible delinquent taxes total \$2,864,553 in the governmental funds.

#### Notes Receivable

In addition to the receivables detailed in the preceding table, the County reports notes receivable totaling \$105,255,000 in the General Debt Service Fund. A \$102,810,000 note receivable was established when the County assisted the Counties Transit Improvement Board (CTIB) in obtaining more favorable financing terms by issuing sales tax revenue bonds and loaning the proceeds to CTIB. As disclosed in Note 7, CTIB is expected to repay the remaining \$91,745,000 balance from sales tax revenues equal to the bond debt service paid by the County. The remaining \$13,510,000 of notes receivable in the General Debt Service Fund relates to the notes receivable from the Minnehaha Watershed District for similar transactions, for which the Watershed will levy property taxes for repayment.

The County reports \$14,964,946 notes receivable in the HRA Fund. In 2011, the County Board authorized participation in a project to construct the Northwest Family Service Center. The County's participation in this transaction allowed the County and partners to benefit from New Market Tax Credits. The General Capital Projects Fund originally provided a \$14,175,000 loan for the project that flowed through the HRA Fund to Northwest Family Service Center Lender LLC. At year-end, the HRA reports the remaining \$13,198,051 note receivable and a corresponding interfund payable to the County. The note charges a 6% interest rate and matures in June 2019. The HRA also provides Transit-oriented Development (TOD) loans and reports the \$3,533,791 notes receivable net of \$1,766,896 allowance for uncollectibles for net TOD notes receivable of \$1,766,895.

#### **Deferred Long-term Loans Receivable**

In 2000, the HRA Board of Commissioners established the Affordable Housing Incentive Fund (AHIF) Program to assist municipalities, government and nonprofit agencies, private and nonprofit housing developers, and lenders in the development of affordable housing throughout Hennepin County. As of December 31, 2014 there are 163 AHIF deferred loans outstanding, with original terms ranging from 10 to 60 years. Loans totaling \$23,137,075 are underwritten with no interest payments, and will be forgiven at the end of the loan period if all program conditions are met. Additional loans totaling \$25,796,305 are written so that both interest and principal payments are deferred for the full term of the loans if all program conditions are met and are expected to be repaid or refinanced with extended terms at their due date. Given the nature of these loans and the uncertainty of repayment, at the time of origination they were fully reserved resulting in a net carrying value of zero.

A total of \$11,098,896 is outstanding at year-end for 595 County-administered single-family home rehabilitation projects funded under the federal Community Development Block Grant (CDBG) deferred loan program. The original terms of these loans generally range from 10 to 50 years, and all such loans will be forgiven and become grants if the homeowners remain in their homes for the full term of the loan. Given the nature of these loans and the uncertainty of repayment, at the time of origination they were fully reserved resulting in a net carrying value of zero.

#### 6. RECEIVABLES – CONTINUED

#### Deferred Long-term Loans Receivable – Continued

The federal Home Investments Partnership (HOME) program focuses on meeting affordable housing needs by funding certain rental housing development and home ownership activities. As of December 31, 2014 there are 429 HOME deferred loans totaling \$31,565,066 outstanding, with original terms ranging from 20 to 40 years. Loans are structured with various terms, including those with principal and interest deferred until the end of the loan term and expected to be repaid or refinanced with extended terms at that date; forgivable loan agreements placed through Habitat for Humanity; forgivable loans providing funding to the West Hennepin Affordable Housing Land Trust; loans to low-income homebuyers in the form of deferred, zero interest loans that are payable at the end of their 30-year term; and other loan structures. Given the nature of these loans and the uncertainty of repayment, at the time of origination they are fully reserved resulting in a net carrying value of zero.

#### 7. COMMITMENTS

#### South Minneapolis Regional Human Services Center

In October, the Board committed \$9,000,000 to be paid in the future from the General Fund for securing and preparing land and up to \$15,900,000 from the Human Services Fund for construction and acquisition of the building and parking facility for the development of a new South Minneapolis Regional Human Services Center. General obligation bonding of up to \$29,600,000 was also committed to this project.

#### Light Rail Transit

The RRA has committed to expend up to \$18,600,000 for the preliminary engineering portion of the Southwest Corridor Light Rail Transit project. Such costs will be a contribution to the County's total financial obligation to advance the Southwest Light Rail Transit project upon approval by the Federal Transit Administration. The RRA also committed to expend up to \$18,400,000 to advance preliminary engineering for the Bottineau Light Rail Transit project.

#### Solid Waste Facilities

The County is obligated under service agreements to make certain payments and supply solid waste to two solid waste facilities. Payments are being made from user charges, and future payments are expected to be:

| Years Ending December 31 | Expected Payment |             |  |
|--------------------------|------------------|-------------|--|
| 2015                     | \$               | 16,276,829  |  |
| 2016                     |                  | 16,390,767  |  |
| 2017                     |                  | 16,505,502  |  |
| 2018                     |                  | 16,621,041  |  |
| 2019                     |                  | 16,737,388  |  |
| 2020-2023                |                  | 68,129,400  |  |
| Total                    | \$               | 150,660,927 |  |

#### 7. COMMITMENTS – CONTINUED

#### **Medical Center Discretely Presented Component Unit**

In furtherance of its charitable purpose, the Medical Center provides a wide variety of benefits to the community, including offering various community-based social service programs such as free clinics, health screenings, trauma services, training for emergency service personnel, crisis intervention, and transportation to and from the hospital campus. Additionally, a large number of health-related education programs are provided for the benefit of the community, including: health enhancements and wellness, classes on specific conditions, unreimbursed costs of medical education, telephone information services, and costs related to programs designed to improve the general standards of the health of the community.

The Medical Center also provides medical care without charge or at reduced cost to residents of its community through the provision of charity care. Included in the Medical Center's definition of charity care is: (a) services provided to the uninsured or underinsured, and (b) the services provided to patients expressing a willingness to pay but who are determined to be unable to pay because of socioeconomic factors.

Based on the community benefits provided by the Medical Center, the County is committed to the provision of significant support to Medical Center operations, including allowing the Medical Center to use specific County-owned land and buildings at essentially no cost, guaranteeing a specific level of cash liquidity for the Medical Center, providing funding for the provision of uncompensated care services based on a specific formula, and providing funding for Medical Center capital improvement projects approved through the County's budgeting process. Through the end of 2014, County Board budget approvals for County support of Medical Center capital improvements that had not yet been completed totaled \$80,914,316 with \$3,701,221 already expended, resulting in a remaining commitment of \$77,213,095.

The County is committed to providing 100% of employer-paid healthcare benefits for Medical Center employees who were retired as of December 31, 2006. In addition, should the Medical Center's costs for healthcare benefits for employees retiring after December 31, 2006 who receive that benefit exceed \$1,000,000 annually, the County would reimburse the Medical Center for 50% of the amount in excess of \$1,000,000.

#### Counties Transit Improvement Board – Joint Venture (non-equity interest)

In 2008, the County Board authorized the County to join Anoka, Dakota, Ramsey, and Washington counties in the establishment of the Counties Transit Improvement Board (CTIB). The Minnesota Legislature authorized this joint powers board to impose a 0.25% sales and use tax, and an excise tax of \$20 on sales of motor vehicles. The taxes are used to provide grants to fund improvements to the transit system, including light rail, commuter rail, and bus rapid transit. In 2010, the County assisted CTIB in obtaining more favorable financing terms by issuing \$102,810,000 of sales tax revenue bonds and loaning the proceeds to CTIB. CTIB will repay the County from sales tax revenues equal to the bond debt service paid by the County. Remaining principal and interest payments total \$132,627,112. At December 31, 2014, the unaudited CTIB assets totaled \$222,303,075 and liabilities totaled \$100,602,498, resulting in a net position of \$121,700,577. Separately issued financial statements can be obtained from CTIB.

#### 8. RELATED PARTY TRANSACTIONS

Significant transactions between the County and the Medical Center discretely presented component unit during the year included the following:

- While the County has retained ownership of land and buildings used by Medical Center operations, the majority of those facilities were leased to the Medical Center for a nominal amount.
- The County received \$2,811,862 from the Medical Center under a capital lease agreement.
- The County provided \$20,000,000 to the Medical Center in support of uncompensated care provided to Hennepin County citizens.
- The County contributed \$3,701,221 to the Medical Center for capital improvement projects.
- The County's MHP enterprise fund is a health maintenance organization purchasing services from the Medical Center and other medical service providers. During 2014, MHP purchased Medical Center services totaling \$47,784,195.

#### 9. INTERFUND BALANCES AND ACTIVITY

#### Interfund Balances

Interfund balances at December 31 consisted of the following:

- \$1,964,484 due from the RRA Capital Projects Fund to the General Capital Projects Fund relating to the County's participation in the Interchange Project.
- \$13,198,051 due from the HRA Fund to the General Capital Projects Fund relating to the County's participation in a project to construct the Northwest Family Service Center and benefit from New Market Tax Credits as described in Note 6. This amount is not expected to be repaid until approximately 2019.
- \$225,608 due from the Metropolitan Health Plan Fund to the General Fund relating to a risk-share arrangement with NorthPoint Health and Wellness Center.
- \$88,124 due from the Metropolitan Health Plan Fund to the Human Services Fund relating to a risk-share arrangement.
- \$38,559,608 due from the General Fund to an Internal Service Fund for future postemployment healthcare benefits. Approximately \$36,400,000 is not expected to be repaid within one year.
- \$22,978,510 due from the Human Services Fund to an Internal Service Fund for future postemployment healthcare benefits. Approximately \$21,000,000 is not expected to be repaid within one year.
- \$3,902,402 due from the Library Fund to an Internal Service Fund for future postemployment healthcare benefits. Approximately \$3,600,000 is not expected to be repaid within one year.

The County has chosen the option of using an Internal Service Fund to account for the cost and liquidation of the governmental funds' postemployment healthcare benefits and compensated absences. As a result, the County reports these estimated future benefit costs in the fund statements on a full accrual basis. Interfund liabilities are reported in the governmental funds for the amounts to be paid to the internal service fund in future years for these benefits.

#### 9. INTERFUND BALANCES AND ACTIVITY - CONTINUED

#### Interfund transfers during 2014:

| Fund Transferred From       | Fund Transferred To      | Purpose   | Amount        |

| Government-wide Total            | \$1,329,087,524         | 242,521,793   | (201,251,402)             | 1,370,357,915           | 67,003,382             |

The Schedule of Changes in Long-term Debt (page 104) provides additional detail on bonds, notes, and certificates of participation. The lease revenue certificates of participation balance shown above, is net of an adjustment on refunding debt (not included on the Schedule of Changes in Long-term Debt). Long-term liabilities of the internal service funds are included in governmental activities. An internal service fund is used to liquidate the governmental fund long-term obligation for compensated absences and postemployment healthcare.

#### **11. DEBT SERVICE REQUIREMENTS**

**General obligation (G.O.) bonds and notes** are direct obligations and pledge the full faith and credit of the County. These bonds generally are issued as 20-year serial bonds with varying amounts of principal maturing each year. The County issues G.O. bonds to provide funds for the acquisition and construction of major capital facilities. During the year, G.O. bonds totaling \$180,615,000 were issued. Of this amount:

- \$100,000,000 was issued to finance County-wide capital improvements.
- \$80,615,000 was issued and, together with \$12,000,000 of County cash, was used to refund the \$19,750,000 currently callable amount of series 2006A and for the advance refunding of series 2007A of \$39,585,000 and series 2008A of \$47,875,000. Relating to the advance refunding of series 2007A and series 2008A, at December 31, 2014, \$82,450,000 of defeased bonds remains outstanding. The current and advance refundings resulted in a total reduction of the County's debt service payments of \$32,950,049 over fourteen years and a total economic gain (difference between the present value of the debt service payments for the old and new debt) of \$10,991,272.

**Sales tax revenue bonds** are issued when sales tax revenue is pledged to pay debt service. In 2007 and 2008, the County issued Ballpark Revenue Bonds and pledged revenue derived from a 0.15% Hennepin County sales tax to pay the debt service. The revenue bonds were issued for the construction of Target Field in Minneapolis, the home of the Minnesota Twins. Target Field is owned by the Minnesota Ballpark Authority, which is not a County agency or component unit.

At December 31, \$411,747,125 of total remaining Ballpark Revenue Bond principal and interest was expected to be paid from future sales tax collections through 2037. Principal and interest paid for the current year and pledged net sales tax revenues received were \$17,496,175 and \$33,771,519, respectively. In addition, the County made optional payments of \$10,000,000 for early redemption of sales tax revenue bonds.

To the extent that sales tax revenues are available each year after payment of debt service, other allowable payments may occur. In addition to use for debt service and for sales tax collection fees, the sales tax revenues may be used 1) to pay for certain operating costs of the Ballpark Authority, 2) to establish and annually fund a reserve fund for capital improvements to the Ballpark, and 3) to make certain expenditures and grants for youth activities and amateur sports and extended library hours.

#### 11. DEBT SERVICE REQUIREMENTS - CONTINUED

Annual debt service requirements for G.O. bonds and notes and for sales tax revenue bonds, as of December 31 are as follows (assuming that the liquidity facility agreements with respect to the variable rate Series 2008C sales tax revenue and 2013C G.O. bonds are renewed and the bonds are remarketed):

| _               | G.O. Bonds &  | Capital Notes | Sales Tax Re  | Sales Tax Revenue Bonds |                 |
|-----------------|---------------|---------------|---------------|-------------------------|-----------------|
| _               | Principal     | Interest      | Principal     | Interest                | Total           |
| Governmental A  | ctivities:    |               |               |                         |                 |
| 2015            | \$ 46,965,000 | \$ 31,099,387 | \$ 6,130,000  | \$ 11,562,180           | \$ 95,756,567   |

| 2018            | 165,000       | 10,200        | -             | -                       | 175,200         |
| 2019            | 170,000       | 6,900         | -             | -                       | 176,900         |
| 2020            | 175,000       | 3,500         |               |                         | 178,500         |
|                 | 975,000       | 70,000        |               |                         | 1,045,000       |
|                 | \$802,405,000 | \$289,242,209 | \$259,560,000 | \$152,187,125           | \$1,503,394,334 |

The interest on variable rate debt is computed using the interest rate effective at December 31. The interest rates on the County's variable rate debt are set by the remarketing agent and are reset weekly.

The liquidity facility that supports the series 2008C variable rate bonds expires on December 31, 2016. If renewal or substitution efforts are unsuccessful, the bonds outstanding at that time will be mandatorily redeemed under the terms of the liquidity facility and the County will be required to reimburse the liquidity provider. If the 2008C bonds are mandatorily redeemed, 2017 debt service for sales tax revenue bond principal will be \$23,455,000 rather than the \$7,155,000 shown in the table above. The liquidity facility that supports the general obligation bonds of series 2013C variable rate G.O. bonds expires December 1, 2018. If renewal or substitution efforts are unsuccessful and the bonds are mandatorily redeemed under the terms of the liquidity facility, 2018 debt service for governmental activities' G.O. bond principal will be \$130,955,000, rather than the \$48,665,000 shown in the table above for the year 2018.

#### 11. DEBT SERVICE REQUIREMENTS - CONTINUED

**G.O. revenue bonds** are issued when specific revenues are pledged to pay debt service. G.O. revenue bonds include bonds payable from Augsburg Ice Arena pledged revenue through 2018, as well as bonds payable from CTIB sales tax revenues through 2030. Additional information on CTIB bonds is provided in Note 7.

Annual debt service requirements for G.O. revenue bonds, as of December 31 are as follows:

|                | G.O. Revenu   |               |                |
|----------------|---------------|---------------|----------------|
| -              | Principal     | Interest      | Total          |
| Governmental A | ctivities:    |               |                |

|                       |              |          |              |

#### **11. DEBT SERVICE REQUIREMENTS – CONTINUED**

**Lease revenue certificates of participation**, with final maturity in 2015, are secured by annual lease payments payable by the County for use of the related facility. Center Hospital Corporation, a public benefit corporation, was created to issue certificates of participation. The County leases a facility from Center Hospital, and the lease revenues are used by Center Hospital to pay bond interest and principal. Lease revenue certificate of participation debt service requirements for 2015 consist of \$2,985,000 principal and \$104,475 interest.

**Taxable commercial paper** was issued in a par amount of \$75,000,000 on March 5, 2014 at an interest rate of 0.14% and a maturity date of May 9, 2014, pursuant to the authorized \$200,000,000 commercial paper program. That issuance was repaid on May 9, 2014. Additional taxable commercial paper was issued in a par amount of \$75,000,000 on March 21, 2014 at an interest rate of 0.14% and a maturity date of May 2, 2014. That issuance was repaid on May 2, 2014. The County Board authorized the commercial paper program as a liquidity instrument and as an option for short-term financing of the capital improvement plan.

#### 12. HOUSING AND REDEVELOPMENT AUTHORITY CONDUIT FINANCING

In support of housing, the HRA has issued, or acted as an agent for, various debt instruments (e.g., revenue bonds, refunding bonds, notes) for which the HRA has no legal obligation to make principal and interest payments. These conduit financings do not constitute an indebtedness of the County within the meaning of any state constitutional provision or statutory limitation. Conduit financings are special limited obligations of the HRA payable solely from amounts pledged by the agencies shown in the table below.

| Conduit Financing,<br>Agreement Date               | Original<br>Balance | Balance<br>December 31,<br>2013 | Balance<br>December 31,<br>2014 |

|  | \$ 111,310,022      | \$ 108,943,629                  | \$ 108,374,589                  |

#### **13. GOVERNMENTAL FUND BALANCE CLASSIFICATIONS**

In addition to unassigned fund balance, governmental fund balance classifications and the constraints imposed on the uses of those resources are shown in the table below. The classifications are described in greater detail in the Fund Balance and Net Position section of Note 1.

|  | Classification and Amount at December 31, 2014 |                            |               |              |  |  |  |  |
|--|--|----------------------------|---------------|--------------|--|--|--|--|
| Fund and Purpose   | Nonspendable                                   | Restricted For             | Committed For | Assigned For |  |  |  |  |

| <u>General Capital Projects Fund</u><br>Long-term portion of receivables<br>Bond requirements relating to capital<br>projects  | 14,394,951                                     | 135,138,605                |               |              |  |  |  |  |

#### **14. RISK MANAGEMENT**

The County is exposed to various risks of loss related to general, automobile, and professional liability torts; theft of, damage to, and destruction of assets; injuries to employees, and natural disasters. Minnesota Statutes Section 466.04 limits the tort liability of the County to \$500,000 for a claimant and \$1,500,000 for multiple claims arising out of a single occurrence for claims arising on or after July 1, 2009. The limits double when a claim arises out of the release of a hazardous substance.

Outstanding and incurred but not reported (IBNR) tort claims are evaluated through a combination of case-by-case reviews and application of historical experience. The balance of the estimated tort liability in the Self Insurance fund at December 31, 2014 is \$500,000. This estimated amount is expected to be paid within one year.

Changes in the estimated tort liabilities during the past two years are as follows:

|  | 2014                              | 2013                              |
|--|-----------------------------------|-----------------------------------|
| Estimated liability at beginning of year<br>Estimated incurred claims (including IBNR)<br>Claim Payments | \$500,000<br>579,947<br>(579,947) | \$500,000<br>620,119<br>(620,119) |
| Estimated liability at end of year   | \$500,000                         | \$500,000                         |

The Self-Insurance fund is also used to account for workers' compensation claims and to hold funds for property risk retentions. The County is self-insured for workers' compensation. The County carries reinsurance for claims in excess of \$1,920,000 per occurrence. During 2014, \$2,489,470 in benefits and administrative costs were paid and charged to the workers' compensation liability account. The balance in the liability account at December 31, 2014 was \$13,459,236. The liability amount is between the high and low actuarial estimates of the remaining ultimate claim costs. Outstanding and IBNR claims are evaluated through a combination of case-by-case reviews and application of historical experience. The estimate of outstanding and IBNR claims is reviewed by an independent actuary.

Changes in the estimated workers' compensation liability during the past two years are as follows:

|  | 2014          | 2013          |
|--|---------------|---------------|
| Estimated liability at beginning of year   | \$ 11,459,236 | \$ 9,806,058  |
| Estimated incurred claims (including IBNR) | 4,489,467     | 4,010,210     |
| Claim Payments and expenses                | (2,489,467)   | (2,357,032)   |
| Estimated liability at end of Year         | \$ 13,459,236 | \$ 11,459,236 |

Commercial property insurance is carried for the County's buildings and contents, subject to deductible amounts. Settled claims from insured losses have not exceeded commercial insurance coverage in any of the past three years.

#### 15. SELF-INSURED EMPLOYEE HEALTH PLAN

Employee health claims are accounted for in the Employee Health Plan Self Insurance internal service fund. The County makes premium payments to the fund that include both employer and employee contributions. A stop-loss insurance policy was purchased for the plan which limits the County's annual exposure to 125% of projected claim payments for the year and \$1,500,000 per person. A liability was recorded at year-end for estimated open and IBNR claims. Outstanding and IBNR claims are evaluated through a review of current year claims paid as well as claims paid subsequent to year-end.

Changes in the employee health plan liability during the past two years are as follows:

|  | 2014         | 2013         |
|--|--------------|--------------|
| Estimated liability at beginning of year   | \$ 5,925,043 | \$ 5,522,631 |
| Estimated incurred claims (including IBNR) | 83,357,353   | 79,409,304   |
| Claim payments and expenses                | (83,395,499) | (79,006,892) |
| Estimated liability at end of year         | \$ 5,886,897 | \$ 5,925,043 |

#### **16. CONTINGENCIES**

The County is involved in disputes and litigation, which normally occur in governmental operations and often involve claims for money damages. These pending cases are not considered unusual in number or amount and, based on past experiences in similar litigation, should not have a material adverse effect on the financial position of the County; however, they could be material to an individual period.

#### **17. OTHER EMPLOYEE BENEFITS**

The County uses an internal service fund to account for the cost and liquidation of governmental fund compensated absences and postemployment healthcare benefits.

#### **Compensated Absences**

Under certain conditions, employees are compensated upon termination of employment for accumulated unpaid vacation, sick leave, and/or paid time off up to a maximum of 1,280 hours. The maximum may be lower for employees based on status/hire date. Payments to terminating employees for accumulated compensated absences totaled \$12,263,718 in 2014. The Other Employee Benefits internal service fund is used to account for these benefits and to liquidate the liability for the governmental funds. As of December 31, the liability for accumulated compensated absences for all employees totaled \$90,721,741. At the government-wide level, \$1,651,665 is reported in business-type activities. The remaining amount of \$89,070,076 is reported in governmental activities, of which \$50,690,173 is funded in the Other Employee Benefits internal service fund.

#### **17. OTHER EMPLOYEE BENEFITS – CONTINUED**

#### Single-Employer Postemployment Healthcare Benefit Program

#### Plan Description

Employees who have County-sponsored health coverage in force as of their termination date and who meet certain age and length of service requirements may be eligible for one of the County's retiree healthcare coverage categories. Eligible retirees may continue health coverage in the County's group health insurance program indefinitely.

While they are under age 65, retirees may participate in the County's group health coverage program with access to the same health plan (and benefit levels) available to active employees. Retirees can qualify to receive a County contribution toward health plan premium (an amount equal to that contributed to an active employee electing employee-only health coverage) until they reach age 65 by meeting one of three specific age and length of service requirements or by qualifying for and applying for a retirement annuity from an approved public service retirement program on the basis of a specified minimum number of years of service. If an employee was hired prior to July 1, 1989, they are eligible for retirement when the sum of their age and service equals 90. Individuals eligible to receive this benefit include certain former County employees who are now employees of either the State of MN Fourth Judicial District Court or Hennepin County Medical Center.

This benefit is not available to non-organized employees beginning County employment after January 1, 2007 or to organized employees beginning County employment after January 1, 2008. Additionally, this benefit is not available to employees who traded their eligibility for the retiree healthcare benefit for participation in a Health Care Savings Program (HCSP) through a one-time opt-out offered to organized employees hired prior to January 1, 2008. The HCSP is funded by contributions of 1% of salary by the employee and \$500-\$700 per year by the County, beginning in January 2009. The County's contributions to the HCSP for the years ending December 31, 2014 and 2013 were \$487,900 and \$393,100, respectively.

Upon reaching age 65, retirees not eligible for Parts A and B of Medicare can continue to participate in the same health plan as active employees, however this benefit is not subsidized by the County. Retirees who are eligible for Parts A and B of Medicare, to remain in the County group program, must enroll in a County sponsored community-rated group Medicare Cost Managed Care plan, which is not subsidized by the County or active employees.

The current retiree healthcare benefit plan is approved by the County Board on a year-to-year basis. According to MN Statute 179A.20, subdivision 2a, a contract may not obligate an employer to fund all or part of the cost of healthcare benefits for a former employee beyond the duration of the contract. The statute also states that a personnel policy may not obligate an employer to fund all or part of healthcare benefits for a former employee beyond the duration of the contract, the county Board may change the benefit structure at any time. The retiree healthcare plan does not issue a publicly available financial report.

#### **17. OTHER EMPLOYEE BENEFITS – CONTINUED**

#### Funding Policy

The Other Employee Benefits internal service fund is used to account for the cost and liquidation of postemployment healthcare benefits relating to governmental funds on a cost-reimbursement basis. Cash set aside in this internal service fund for the future costs of retiree healthcare totaling \$18,645,861 does not meet requirements for reporting this funding as a contribution in relation to the Annual Required Contribution (ARC). The required contribution is based on projected "pay-as-you-go" financing requirements. The County Board may change the funding policy at any time. In 2014, the County paid eligible single premium amounts for the enrolled retirees described above, while these retirees contributed up to \$75 per month to the County for the benefit. Eligible retiree family members, as well as ineligible retirees, may pay their full premium to obtain coverage.

#### Annual OPEB Cost and Net OPEB Obligation

The County's annual other postemployment benefit (OPEB) expense is actuarially determined in accordance with the parameters of Governmental Accounting Standards Board (GASB) Statement 45. The County's annual OPEB cost (AOC) represents a level of funding that would be projected to cover the normal cost each year including interest and adjustments, and would amortize the unfunded actuarial liabilities (UAL) over a 30-year period.

The \$16,308,025 AOC in 2014 consists of the \$9,229,731 normal cost, the \$6,873,348 amortization of UAL, and net interest and adjustments of \$204,946. During 2014, approximately 825 former employees received this postemployment healthcare benefit. The table below shows the components of the County's annual OPEB cost, the amount actually contributed to the plan, and changes in the County's net OPEB obligation relating to the postemployment healthcare plan:

| ARC                                     | \$ 16,103,079 |
|---|---------------|
| Interest on net OPEB obligation         | 1,844,516     |
| Adjustments to ARC                      | (1,639,570)   |
| AOC (expense)                           | 16,308,025    |
| Contributions made                      | (9,774,000)   |
| Increase in net OPEB obligation         | 6,534,025     |
| Net OPEB obligation - beginning of year | 49,187,104    |
| Net OPEB obligation - end of year       | \$ 55,721,129 |

Annual cost, contributions, and year-end obligation information for the last three years are shown below:

| Year Ended December 31: | Annual OPEB Cost | Percentage of Annual<br>OPEB Costs Contributed | Net OPEB Obligation |
|-------------------------|------------------|--|---------------------|
| 2012                    | 16,180,808       | 64%  | 43,888,808          |
| 2013                    | 16,755,296       | 68%  | 49,187,104          |
| 2014                    | 16,308,025       | 60%  | 55,721,129          |

#### **17. OTHER EMPLOYEE BENEFITS – CONTINUED**

#### Funded Status and Funding Progress

The actuarial accrued liability for benefits as of January 1, 2014 per the most recent actuarial valuation on was \$198,747,432. This liability will be phased in over 30 years. Contributions in relation to the \$16,308,025 AOC during 2014 totaled \$9,774,000. No plan assets exist under the GASB 45 definition of plan assets; therefore the unfunded actuarial accrued liability (UAAL) at December 31, 2014 remained \$198,747,432. The annual payroll of active employees covered by the plan was \$495,139,982. The ratio of the UAAL to the covered payroll was 40.1%.

The projection of future benefit payments for an ongoing plan involves estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality, and the healthcare cost trend. Amounts determined regarding the funded status of the plan and the annual required contributions of the employer are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future. A schedule of funding progress, showing multiyear trend information about the actuarial accrued liability for benefits and the non-funded status, immediately follows the notes to the basic financial statements.

#### Actuarial Methods & Assumptions

Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employer and the plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing of benefit costs between the County and plan members to that point. The actuarial methods and assumptions used include techniques that are designed to reduce the effects of short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculations.

In the January 1, 2014 actuarial valuation, the entry age normal cost method was used. The actuarial assumptions include a 3.75% investment rate of return, which is the expected long-term investment return on the County's own investments. An annual healthcare cost trend rate of 6% initially, reduced over 45 years to an ultimate rate of 5.2%, was used. Wage inflation of 3.75% per year and a level percentage of projected payroll 30-year open amortization period were used. The Schedule of Funding Progress for the Retiree Health Plan is found in the Required Supplementary Information section on page 79.

#### **18. EMPLOYEE RETIREMENT SYSTEMS**

#### Public Employees Retirement Association of Minnesota

Most employees are covered by a statewide, defined benefit pension plan administered by the Public Employees Retirement Association of Minnesota (PERA). However, approximately 0.2% of employees who were previously employed by the City of Minneapolis and whose work unit was transferred to the County under legislative authority are instead covered by the Minneapolis Employees Retirement Fund (MERF) division of PERA. Unless they meet PERA exclusion criteria, all other full-time and part-time employees in permanent positions are required to participate in PERA.

#### **18. EMPLOYEE RETIREMENT SYSTEMS – CONTINUED**

#### Plan Description

All full-time and certain part-time employees of the County are covered by defined benefit plans administered by the Public Employees Retirement Association of Minnesota (PERA). PERA administers the General Employees Retirement Fund (GERF), the Public Employees Police and Fire Fund (PEPFF), and the Local Government Correctional Service Retirement Fund, called the Public Employees Correctional Fund (PECF), which are cost-sharing, multiple-employer retirement plans. These plans are established and administered in accordance with Minnesota Statutes, Chapters 353 and 356.

GERF members belong to either the Coordinated Plan or the Basic Plan. Coordinated Plan members are covered by Social Security and Basic Plan members are not. All new members must participate in the Coordinated Plan. All police officers, fire-fighters and peace officers who qualify for membership by statute are covered by the PEPFF. Members who are employed in a county correctional institution as a correctional guard or officer, a joint jailer/dispatcher, or as a supervisor of correctional guards or officers or of joint jailers/dispatchers and are directly responsible for the direct security, custody, and control of the county correctional institution and its inmates are covered by the PECF.

PERA provides retirement benefits as well as disability benefits to members, and benefits to survivors upon death of eligible members. Benefits are established by State Statute, and vest after five years of credited service. The defined retirement benefits are based on a member's highest average salary for any five successive years of allowable service, age, and years of credit at termination of service.

Two methods are used to compute benefits for PERA's Coordinated and Basic Plan members. The retiring member receives the higher of a step-rate benefit accrual formula (Method 1) or a level accrual formula (Method 2). Under Method 1, the annuity accrual rate for a Basic Plan member is 2.2 percent of average salary for each of the first 10 years of service and 2.7 percent for each remaining year. The annuity accrual rate for a Coordinated Plan member is 1.2 percent of average salary for each of the first 10 years of service. Under Method 2, the annuity accrual rate is 2.7 percent of average salary for Basic Plan members and 1.7 percent for Coordinated Plan members for each year of service. For PEPFF members, the annuity accrual rate is 3.0 percent for each year of service. The annuity accrual rate is 1.9 percent for each year of service for PECF members. For all PEPFF members, PECF members, and GERF members hired prior to July 1, 1989 whose annuity is calculated using Method 1, a full annuity is available when age plus years of service equal 90. Normal retirement age is 55 for PEPFF and PECF members and 65 for Basic and Coordinated members hired prior to July 1, 1989. Normal retirement age is the age for unreduced Social Security benefits capped at 66 for Coordinated members hired on or after July 1, 1989. A reduced retirement annuity is also available to eligible members seeking early retirement.

There are different types of annuities available to members upon retirement. A single-life annuity is a lifetime annuity that ceases upon the death of the retiree – no survivor annuity is payable. There are also various types of joint and survivor annuity options available, which will be payable over joint lives. Members may also leave their contributions in the fund upon termination of public service in order to qualify for a deferred annuity at retirement age. Refunds of contributions are available at any time to members who leave public service, but before retirement benefits begin.

The benefit provisions stated in the previous paragraphs of this section are current provisions and apply to active plan participants.

PERA issues a publicly available financial report that includes financial statements and required supplementary information for GERF, PEPFF, and PECF. That report may be obtained on the web at www.mnpera.org, by writing to PERA at 60 Empire Drive #200, St. Paul, Minnesota, 55103-2088 or by calling (651) 296-7460 or 1-800-652-9026.

#### **18. EMPLOYEE RETIREMENT SYSTEMS – CONTINUED**

#### Funding Policy

Minnesota Statutes Chapter 353 sets the rates for employer and employee contributions. These statutes are established and amended by the state legislature. The County makes annual contributions to the pension plans equal to the amount required by state statutes. GERF Basic Plan members and Coordinated Plan members are required to contribute 9.1% and 6.25%, respectively, of their annual covered salary in 2014. PEPFF members are required to contribute 10.2% of their annual covered salary in 2014. PECF members are required to contribute 5.83% of their annual covered salary. The County is required to contribute the following percentages of annual covered payroll: 11.78% for Basic Plan members, 7.25% for Coordinated Plan members, 15.3% for PEPFF members, and 8.75% for PECF members. The County's contributions to the Public Employees Retirement Fund for the years ending December 31, 2014, 2013, and 2012 were \$38,273,728, \$36,241,870, and \$35,504,164, respectively. The County's contributions were equal to the contractually required contributions for each year as set by state statute. Contribution rates will increase on January 1, 2015 in the Coordinated Plan (6.5% for members and 7.5% for employers) and the Police and Fire Fund (10.8% for members and 16.2% for employers).

#### **Supplemental Retirement Defined Contribution Plan**

The County administers a plan which provides additional pension benefits for eligible employees through a nonelective deferred compensation plan "grandfathered" under Section 6064(d)(3) of the Technical and Miscellaneous Revenue Act of 1988 (TAMRA). In a defined contribution plan, benefits depend solely on amounts contributed to the plan plus investment earnings. The plan is established and administered in accordance with Minnesota Statutes, Chapter 383B. Employees have the option to participate after five years of continuous service, although the plan has been discontinued for employees hired after April 13, 1982. State legislation requires that both the employee and the employer contribute an amount equal to 1% of the employee's gross salary each pay period. Contributions for each employee (and interest allocated to the employee's account) are fully vested immediately. The County's contributions to the Supplemental Retirement Plan for the years ending December 31, 2014, 2013, and 2012 were \$173,262, \$207,278, and \$245,964, respectively.

#### **19. NEW ACCOUNTING PRONOUNCEMENTS**

#### Accounting Standards Not Yet Adopted

GASB Statement No. 68, Accounting and Financial Reporting for Pensions, and its amendment, GASB Statement No. 71, will be effective for the County on January 1, 2015. This statement revises and establishes new financial reporting requirements for most governments that provide their employees with pension benefits. Among other requirements, Statement No. 68 requires governments providing defined benefit pensions to recognize their long-term obligation for pension benefits as a liability for the first time and calls for immediate recognition of more pension expense than is currently required.

GASB Statement Number 72, Fair Value Measurement and Application, requires disclosures to be made about fair value measurements, the level of fair value hierarchy, and valuation techniques. The requirements of this statement address comparability of financial statements among governments by requiring measurement of certain assets and liabilities using a consistent and more detailed definition of fair value and accepted valuation techniques. This statement will be effective for the County on January 1, 2016.

The County's management has not yet determined the effect that the above GASB statements will have on the County's financial statements, but GASB Statement No. 68 will have a material impact.

Notes:

See Note 17 in the Notes to the Basic Financial Statements for additional information relating to the plan description, funding, cost, obligation, and actuarial methods/assumptions.

The January 1, 2012 actuarial valuation was significantly lower than would have been expected based on the results of the January 1, 2010 valuation report prepared by the prior actuary. The main cost drivers for the lower estimates were the favorable medical claims experience and revisions to the assumed retirement rates, which overrode the increases in costs due to the use of a lower interest discount rate and higher medical trend rates. The January 1, 2014 valuation reflected a decreased liability that related to favorable medical claims experience, lower medical trend rates, and fewer retired participants.

#### Hennepin County, Minnesota Notes to Required Supplementary Information December 31, 2014

#### STEWARDSHIP, COMPLIANCE AND ACCOUNTABILITY

Budgets are presented on a basis consistent with accounting principles generally accepted in the United States of America. Annual appropriated budgets are adopted for the general, special revenue, debt service, and enterprise funds. These annual appropriations lapse at year-end to the extent that they have not been expended or encumbered. Project-length financial plans are adopted for all capital projects in the five-year Capital Improvement Plan. An annual capital budget is adopted that reflects the annual appropriation for the project-length plans, which does not lapse until the project is completed.

In approximately July of each year, County departments submit budget requests for the following year to the County Administrator. The budget is prepared by fund and department and includes information on the past year, current year estimates, and requested appropriations. The County Administrator reviews the budget requests, makes modifications to the requests, and submits the total budget to the County Board.

The County Board must adopt a proposed maximum property tax levy by September 30. The Board holds public hearings, makes modifications to the budget, and legally enacts the budget by passage of a resolution. The final levy must be certified to the County Auditor by December 20. Expenditures may not legally exceed budgeted appropriations at the departmental level.

The County Administrator may adjust budgets between accounts within a department. The Assistant County Administrators for Public Works and Human Services have been delegated authority by the Board to transfer budgeted amounts between departments within those respective program areas. The County Board may authorize all other changes in the budget, including the transfer of budgeted amounts between all departments.

<sup>1</sup> The inclusion of a discretely presented component unit in the County's financial statements was new in 2007. On January 1, 2007, the governance structure of Hennepin County Medical Center was changed through the formation of Hennepin Healthcare System, Inc., a legally separate public corporation, to manage the operations of the Medical Center. Prior to 2007, the Medical Center was a County enterprise fund (business-type activity).

<sup>2</sup> In 2007 and 2008, sales tax revenue bonds totalling \$150 million and \$191.8 million, respectively, were issued and proceeds were granted to the Minnesota Ballpark Authority for ballpark construction.

<sup>3</sup> Beginning in 2012 implementation of GASB 61 required the inclusion of an asset for the County's investment in component unit (the Medical Center) in governmental activities, which is also reflected above for 2011 for comparative purposes. On January 1, 2012, Hennepin Faculty Associates became fully integrated with the Medical Center. The County's investment in component unit is not reflected prior to 2011 because information for the integrated entity is not available for those years.

<sup>1</sup> Note that the Government-wide presentation of General Government expenses is very different from the Table 7 governmental fund presentation. For example, Table 3 differs from Table 7 in that Table 3 does not include certain expenses such as those for capital assets and debt principal payments due to the different measurement focus.

<sup>2</sup> See footnotes 1 and 2 on Table 2 for information regarding 2007 and 2008.

<sup>3</sup> The Property Services department moved from General Government to Public Works in 2014, and 2013 was adjusted for comparison purposes, but data was not available for prior years.

<sup>1</sup> The inclusion of a discretely presented component unit in the County's financial statements was new in 2007. On January 1, 2007, the governance structure of Hennepin County Medical Center was changed through the formation of Hennepin Healthcare System, Inc. (HHS), a legally separate public corporation, to manage the operations of the Medical Center. Prior to 2007, the Medical Center was a County enterprise fund (business-type activity).

<sup>2</sup> Total investment earning includes the net change in the fair value of investments. See Note 3 for actual investment income and realized gains/losses without the impact of changes in fair value.

<sup>3</sup> The Property Services department moved from General Government to Public Works (Other Program Revenues) in 2014, and 2013 was adjusted for comparison purposes, but data was not available for prior years.

<sup>1</sup> Note that the deficiency is the result of the exclusion of other financing sources and uses from this column. Therefore, capital projects expenditures are included while the bond proceeds funding the projects are not included.

<sup>2</sup> Bond Proceeds in 2006 include a \$47.8 million crossover refunding. The payments to refund the old debt occured in 2007 and 2008.

<sup>3</sup> In 2007 and 2008, sales tax revenue bonds totalling \$150 million and \$191.8 million, respectively, were issued and proceeds were granted to the Minnesota Ballpark Authority for ballpark construction.

<sup>4</sup> In years when the County made optional payments for early redemption of outstanding G.O. bond issues, including current refundings, the related amounts were removed for the calculation of the debt service percentage. The payments included \$4,100,000 in 2008, \$5,700,000 in 2009, \$4,000,000 in 2010, \$19,200,000 in 2011, \$21,400,000 in 2012, and \$33,700,000 in 2013.

<sup>1</sup> Note that the General Fund presentation of General Government expenses is very different from the Table 3 government-wide presentation. For example, Table 7 differs from Table 3 in that Table 7 includes certain expenses, such as those for capital assets and debt principal payments, due to the different measurement focus.

<sup>2</sup> In 2007 and 2008, \$150 million and \$336.9 million of sales tax revenue bonds were issued respectively for which proceeds were granted to the Minnesota Ballpark Authority for the ballpark capital project, which is reported in the General Government function.

<sup>3</sup> The Property Services department moved from General Government to Public Works in 2014, and 2013 was adjusted for comparison purposes, but data was not available for prior years.

<sup>1</sup> Property estimated market value is for the assessment year indicated. Applicable taxes are collectible in the subsequent year.

<sup>2</sup> The tax rate is applied to tax capacity, which is determined by multiplying the taxable market value of each property by the statutory class rates for the specific use(s) on the property.

<sup>1</sup> Tax capacity is for the 2014 assessment year, for taxes payable in 2015. In Minnesota, tax capacity is the basis of property taxation. Tax capacity is based on State determined class rates applied to estimated market value (e.g. a residential homestead valued at \$75,000 x 1% = \$750 tax capacity). Different property classifications are assigned different class rates.

<sup>2</sup> Tax rates are expressed as percentages of total tax capacity.

<sup>1</sup> Due to the implementation of GASB 65, deferred charges on refundings are not reported with outstanding debt in 2012 or later. Deferred charges on refundings are included with the applicable debt prior to 2012 due to limited availability of data.

<sup>2</sup> See Table 22 for personal income and population data. These ratios are calculated using personal income and population for the prior calendar year.

<sup>3</sup> 2006 and 2007 governmental activities outstanding debt amounts include crossover refunding totals of \$47.8 million and \$41.2 million, respectively. Both the refunding debt and refunded debt (old debt) remained on the books until the crossover date when the old debt was defeased.

<sup>4</sup> The inclusion of a discretely presented component unit in the County's financial statements was new in 2007. On January 1, 2007, the governance structure of Hennepin County Medical Center was changed through the formation of Hennepin Healthcare System, Inc. (HHS), a legally separate public corporation, to manage the operations of the Medical Center. Prior to 2007, the Medical Center was a County enterprise fund (business-type activity).

<sup>5</sup> In 2010, the County assisted the Counties Transit Improvement Board (CTIB) in obtaining more favorable financing terms by issuing \$102.8 million of general obligation sales tax revenue bonds and loaning the proceeds to CTIB. CTIB will repay the County from sales tax revenues equal to the bond debt service paid by the County.

Note: Details regarding the County's outstanding debt can be found in the Notes to the Basic Financial Statements.

<sup>1</sup> Debt that is secured in whole or part by the authority to levy taxes on real estate. Per M.S. 475.51, net general obligation debt is determined by deducting from the total general obligation debt the cash available for servicing the debt and debt intended to be financed primarily by means other than a real estate tax levy. This table was restated in 2012 to include unamortized debt premiums and deferred amounts on refundings. The debt of the Regional Railroad Authority is included, which is a limited tax obligation of the Regional Railroad Authority.

<sup>2</sup> Estimated market value is for the assessment year indicated and is per the Hennepin County Taxpayer Services Department. Applicable taxes are collectible in the subsequent year.

<sup>3</sup> Sources: Office of the State Demographer and U.S. Census Bureau.

<sup>4</sup> 2006 and 2007 net general obligation debt amounts included crossover refunding totals of \$47.8 million and \$41.2 million, respectively. The amounts available for debt service included funds held by a trustee for that purpose. Both the refunding debt and refunded debt (old debt) remained on the books until the crossover date when the old debt was defeased.

<sup>5</sup> Due to the implementation of GASB 65, deferred charges on refundings are not reported with outstanding debt in 2012 or later. Due to limited availability of data, deferred charges on refundings remain included with the applicable debt prior to 2012.

<sup>1</sup> Debt that is secured in whole or part by the authority to levy taxes on real estate. Per M.S. 475.51, net general obligation debt is determined by deducting from the total general obligation debt the cash available for servicing the debt, and debt that is intended to be financed primarily by means other than a real estate tax levy. Debt premiums and deferred amounts on refundings are not included in the amounts shown.

<sup>2</sup> The percentages reflect the portion of the general obligation debt secured by taxable real estate located within the County.

<sup>3</sup> Includes Metropolitan Council Transit Operations debt.

<sup>1</sup> First lien sales tax revenue bonds were issued in 2007. Second and third lien sales tax revenue bonds were issued in 2008.

<sup>2</sup> Net revenues equals revenues received from the State less Admin fees on a modified accrual basis. The State remits sales tax to the County in the second month after the tax is initially collected (e.g., amounts received in January and February are properly reported as revenues for November and December of the prior year).

<sup>1</sup> The levy includes state-paid aids and credits such as Homestead and Agricultural Credit Aid, Agricultural Preserve Credit, Disparity Aid, Equalization Aid, and Market Value Based Homestead Credit Aid. The levy does not include Local Government Aid or Education Aid.

<sup>2</sup> Includes the County, municipalities, school districts, watershed districts, and other taxing jurisdictions.

<sup>3</sup> Includes sales tax revenue and Ballpark construction costs and debt service beginning in 2007.

<sup>4</sup> Includes only debt secured in whole or part by the authority to levy taxes on real estate. Therefore, revenue bonds are excluded.

<sup>5</sup> Includes full-time and part-time employees converted to full-time equivalents. Medical Center employees became employees of the County's discretely presented componet unit in 2007. In 2007, part-time employees were about 19.6% of the total full-time equivalent workforce.

### Hennepin County, Minnesota Selected Ratio Measures of Financial Condition Last Ten Years

|   | <u>2005</u> | <u>2006</u> | <u>2007</u> | <u>2008</u> |
|---|-------------|-------------|-------------|-------------|
| Debt service expenditures for property tax supported bonds to: <sup>1</sup> |             |             |             |             |
| County property tax levy  | 8.8 %       | 9.4 %       | 14.1 %      | 15.2 %      |
| Governmental fund expenditures  | 4.4         | 4.8         | 6.1         | 6.2         |
| Net general obligation debt to:   |             |             |             |             |
| Property taxable market value   | 0.29        | 0.29        | 0.30        | 0.36        |
| Legal debt margin   | 17.5        | 17.2        | 17.6        | 22.4        |
| Direct, overlapping, and underlying net G.O. debt                           | 13.7        | 16.5        | 16.6        | 19.9        |
| Governmental fund revenues  | 32.8        | 34.5        | 36.1        | 43.3        |
| General obligation debt due within ten years                                |             |             |             |             |
| To total general obligation debt  | 64.2        | 68.3        | 68.4        | 55.4        |
| Unassigned General Fund fund balance <sup>2</sup>                           |             |             |             |             |
| To general fund expenditures  | 32.6        | 27.6        | 16.5        | 15.6        |

<sup>1</sup> Debt service in 2007 and 2008 included \$10.5 million and \$43.0 million relating to the crossover refunding. A crossover refunding requires both the refunding debt and refunded debt (old debt) remained on the books until the crossover date when the old debt is defeased. In years when the County made optional payments for early redemption of outstanding bond issues, the optional amounts were removed for the calculation of the debt service ratios.

<sup>2</sup> Governmental Accounting Standards Board Statement 54 was effective for 2011, resulting in new fund balance categories where undesignated is most comparable to unassigned. Undesignated fund balance is used for the ratios for 2009 and prior.
